Frank Herbert Simonds

War Behind The Lines:

Behind the Lines Andrew Carroll, 2006-10-01 Andrew Carroll spent three years traveling throughout the United States and around the world to seek out the most powerful and unforgettable letters ever written during American wars. *Behind the Lines* is the result of that extraordinary trip and represents the first book of its kind: a dramatic, intimate, and revealing look at warfare as seen through the personal correspondence of US and foreign troops and civilians who have experienced major conflicts firsthand. From handwritten missives penned during the American Revolution to e-mails from Afghanistan and Iraq, *Behind the Lines* captures the full spectrum of emotions: exhilaration, fear, devotion, despair, courage, heartache, patriotism, rage, and even humor expressed in times of war.

Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer's *Iliad*, Wilfred Owen in *Dulce et Decorum Est*, or Allen Ginsberg in *Wichita Vortex Sutra*, poets have long given solitary voice against the brutality of war. The hasty cancellation of the 2003 White House symposium *Poetry and the American Voice* in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful. *Behind the Lines* investigates American war resistance poetry from the Second World War through the Iraq wars. Rather than simply chronicling the genre, Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented. As such, he explores a largely neglected area of scholarship: the poet's relationship to dissenting political movements and the nation. In his elegant study, Metres examines the ways in which war resistance is registered, not only in terms of its content but also at the level of the lyric. He proposes that protest poetry constitutes a subgenre that, by virtue of its preoccupation with politics, history, and trauma, probes the limits of American lyric poetry. Thus, war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial, though largely unexamined, body of writing that stands at the center of dissident political movements.

Imperial War Museums' Book of War Behind Enemy Lines Julian Thompson, 2018-04-30 An account of the various units of the British special forces used during the Second World War, perfect for military enthusiasts and WWII history buffs. *War Behind Enemy Lines* tells the unvarnished story of British Special Forces in the Second World War. While the SAS and SBS remain household names today, there were a plethora of lesser-known units, large and small, that played their part before departing the scene. Of special note was the Long Range Desert Group (LRDG), formed in North Africa, who imparted their skills to David Stirling's SAS in the early days. The Special Boat Sections and Squadron, and other Royal Marine units, inflicted great damage. Popski's Private Army used heavily armed jeeps effectively in Italy, while the Jedburghs parachuted in to assist the French Resistance. In Burma, the Chindits, under the controversial Orde Wingate, conducted deep penetration patrols against the Japanese, suffering heavy casualties from enemy action and disease. Drawing on personal accounts as well as official records, Julian Thompson paints a vivid picture of the operations and contribution of these and other units. He also analyses, using his own experience, the reasons for the resulting successes and failures. There is unlikely to
