

THE WRITING PROCESS

1

Pre-Writing

This stage involves brainstorming ideas, conducting research, outlining the structure of the piece, and gathering any necessary materials or information.

2

Drafting

In this phase, the writer puts their ideas into words, focusing on getting their thoughts down on paper or screen without worrying too much about grammar or style. This is often called the "rough draft" stage.

3

Revising

After completing the initial draft, the writer revisits the work to make improvements. This includes refining the content, clarifying ideas, adding or removing information, and restructuring paragraphs or sections for better flow and coherence.

4

Editing

This step involves reviewing the draft for grammar, punctuation, spelling, and other mechanical errors. It also includes checking for consistency in style, tone, and formatting.

5

Proofreading

The final step is to carefully read through the revised and edited version to catch any remaining errors or inconsistencies before the piece is finalized.

6

Publishing/ Sharing

Once the writing has been thoroughly reviewed and polished, it is ready for publication or sharing with the intended audience. This could involve submitting it for publication, posting it online, or sharing it with colleagues or clients.
