Evidence-based Non-pharmacological Therapies for Palliative Cancer Care William C.S. Cho, 2013-01-30 Cancer is one of the leading killers in the world and the incidence is increasing but most cancer patients and cancer survivors suffer much from the disease and its conventional treatments side effects In the past clinical data showed that some complementary and alternative medicine CAM possessed anticancer abilities but some clinicians and scientists have queried about the scientific validity of CAM due to the lack of scientific evidence There is great demand in the knowledge gap to explore the scientific and evidence based knowledge of CAM in the anticancer field With this aim a book series is needed to structurally deliver the knowledge to readers Integrative therapies comprise a variety of non pharmacological interventions that assist in alleviating physical and psychological symptoms Apart from being a life threatening disease cancer and its therapy are usually associated with a significant deterioration in the quality of life There is growing evidence that non pharmacological therapies provide symptom and pain management in cancer palliation This volume is a specialised book presenting the research evidence relevant to the application of a range of commonly used non pharmacological interventions in supportive cancer care including massage acupuncture Qigong yoga mind body therapy mindfulness based intervention and aromatherapy A number of scientific researches and clinical studies support that these therapies offer potential beneficial effects for cancer patients in terms of reducing pain anxiety and other symptoms Indeed non pharmacological therapies are increasingly gaining acceptance in the healthcare community as complementary to conventional cancer treatments Most of them are non invasive inexpensive and useful in improving quality of life and they may be accessed by patients themselves

Health of the Human Spirit Brian Luke Seaward, 2012-02-15 Health of the Human Spirit Second Edition Spiritual Dimensions for Personal Health is a thoughtful examination of the ageless topic of human spirituality It addresses the need to acknowledge spiritual wellness as a vital dimension of the general health and well being of the individual and examines the dynamic balance between mind body spirit health and the roadblocks and distractions on the spiritual path Dr Seaward includes many behavioral suggestions to enhance the health of the human spirit He presents the material in an approachable user friendly manner by engaging the reader and carefully distinguishing the differences between spirituality and religion

Interviewing Strategies for Helpers William Henry Cormier, Louise Sherilyn Cormier, 1991 Designed to help students develop and refine the RcraftS of

counseling goes beyond basic skills and includes detailed intervention strategies making it probably the most comprehensive book available on interviewing skills AuthorsU primary goals to help students acquire a repertory of counseling interview skills and strategies to enable them to select and use the appropriate counseling strategies when confronted with varying situations and to provide them with ways to monitor and evaluate their own behavior problem solving added to Ch 15 less emphasis of NLP Neurolinguistic Programming incorporation of the DSM IIR T87 replacing DSM III T80 Complementary and Alternative Medicine John William Spencer, Joseph J. Jacobs (M.D.), 2003 This popular evidence based overview of complementary and alternative medicine CAM emphasizes clinical research analyzes the effectiveness of each therapy and presents practical information on how these therapies can be used to treat health conditions and diseases It not only acquaints the reader with information about CAM but provides evidence for the effectiveness of various therapies used to treat medical conditions ranging from allergies to psychiatric conditions in all populations relevant to CAM including children women and the elderly Summary tables embedded throughout highlight clinical data statistics and major research findings More thorough documentation in this edition is achieved through new tables and added commentary on the quality of studies making research findings more relevant and useful Chapters are grouped according to condition and special populations rather than treatment so readers can easily compare all possible treatments for a specific condition Up to date tables allow the reader to see what studies have been done for a certain condition and what the findings are Extensive references and suggested reading lists refer the reader to the most up to date or historically relevant sources An emphasis on research and clinical studies gives the book a comprehensive focus on CAM treatments and results The evidenced based approach clearly details which therapies are most effective and safe Up to date tables focusing on critical needs related to demographics safety and areas of clinical pain allow summary information to be quickly referenced Comprehensive reliable content presents an unbiased account of CAM that allows the reader to follow the data without excessive commentary from the authors A focus on major medical conditions for which there is the most detailed and up to date information available allows the reader to learn about the major critical issues of CAM The ways in which research methodology can be used to practice evidence based medicine is reviewed in several chapters A focus on special populations including women children and the elderly presents important CAM considerations for these groups A new chapter on Legal and Ethical Issues addresses important professional considerations for practice related to CAM including physician liability malpractice issues patient responsibility and accreditation and licensing of CAM providers A new chapter on Integration of Clinical Practice and Medical Training with Complimentary and Alternative and Evidence Based Medicine evaluating use of the case history approach information and evidence in clinical practice and a model for integration of CAM used at the University of Arizona School of Medicine Significant content updates are provided for timely issues such as the use of herbs for depression the use of massage for anxiety CAM in pediatric and nursing care situations and multi modal therapies for pain Each table

throughout the book has been extensively updated with the latest facts and information A final summary chapter at the end of the book presents emerging CAM treatments and suggests goals for CAM studies Much more attention has been paid in this edition to evaluating the quality of research which allows for concrete and valid conclusions that are supported by science Appendices have been updated with much more information on research databases listings and organizations *The Journal of Alternative and Complementary Medicine* ,2009 **The American Journal of Psychiatry** ,1992-05

Psychotherapy and Psychosomatics ,1996 **AAOHN Journal** ,2008 **The Physical and Psychological Effects of Meditation** Michael Murphy,Steven Donovan,Eugene Taylor,1997 Digest of Neurology and Psychiatry ,1992 Abstracts and reviews of selected literature in psychiatry neurology and their allied fields varies slightly **Antecedent Assessment & Intervention** James K.
