public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Great Texas Social Studies Textbook War of 1961-1962** Allan O. Kownslar,2020 The Great Texas Social Studies War of 1961 1962 was among the most extensive social studies textbook confrontations in the nation s history certainly the most extensive in the Lone Star State What was unique was that this was the first time it brought forth such a widespread confrontation between Texas conservatives and Texas liberals over what should appear in social studies programs The monumental confrontation between those Texas conservatives and liberals brought out a star studded cast of rather colorful spokespersons concerned with the content of social studies textbooks Whether conservative or liberal what they had to say in their public testimonies showed they spoke with sincerity conviction and passion Equally important their public testimonies are every bit as relevant today as they were in 1961 1962 Provided by publisher

Society and the Social Sciences ,1988 **The Philosophy of Social Science** Martin Hollis,1994-09-01 This textbook by Martin Hollis offers an exceptionally clear and concise introduction to the philosophy of social science It examines questions which give rise to fundamental philosophical issues Are social structures better conceived of as systems of laws and forces or as webs of meanings and practices Is social action better viewed as rational behaviour or as self expression By exploring such questions the reader is led to reflect upon the nature of scientific method in social science Is the aim to explain the social world after a manner worked out for the natural world or to understand the social world from within *Social Science : Textbook for Elementary and Middle Schools* M. Ovsyannikova,B. Levitan,V. Nekrasova,1935 **Social Science** Ovsîannikova Mariîa Dmitrievna,B. Levitan,S. I. Ushakov,A. Aleksandrov,1935 Contemporary Society John A Perry,Erna K Perry,2015-08-27 This best selling text emphasizes that social and cultural changes are the pervasive realities of our era One of the main themes of Contemporary Society is that the transition from an industrial to a post industrial order in the modern world is fraught with difficulties as was the transition from an agricultural to an industrial order in an earlier era Within this framework we can observe the increasing fragmentation of the social order which tends to lead people away from community and a common purpose and often invites conflict and disunity At the same time countervailing social forces are also at work providing some stability some shelter in the storm Finally societies are faced with the rapid and transformative power of information technology a fact that propels separate groups of people into a global entity **Social Science Reference Sources** Tze-chung Li,1980 (Re)Constructing Memory: Textbooks, Identity, Nation, and State James H. Williams,Wendy D. Bokhorst-Heng,2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation Authors voices come from a variety of contexts some historical some contemporary some providing analyses over time But they all consider the changing portrayal of diversity belonging and exclusion in multiethnic and diverse societies where silenced invisible marginalized members have struggled to make their voices heard and to have their identities incorporated into the national

narrative The authors discuss portrayals of past exclusions around religion ethnicity sexual orientation as they look at the shifting boundaries of insider and outsider This book is thus about who we are not only demographically but also in terms of the past especially how and whether we teach discredited pasts through textbooks The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive critical and positively bonding in increasingly larger and more inclusive contexts **Powerful Social Studies for Elementary Students** Jere E.

Brophy,Janet Alleman,2007 Outlines ways to select content and teach history geography and social sciences more meaningfully Hone skills in planning well organized social studies instruction that produces positive student outcomes using developmentally appropriate content and methods to help students develop social understanding and civic action Publisher
