## **Social Psychophysiology A Sourcebook:**

**Social Psychophysiology** John T. Cacioppo,1983      **The Concise Corsini Encyclopedia of Psychology and Behavioral Science** W. Edward Craighead,Charles B. Nemeroff,2004-04-19 Edited by high caliber experts and contributed to by quality researchers and practitioners in psychology and related fields Includes over 500 topical entries Each entry features suggested readings and extensive cross referencing Accessible to students and general readers Edited by two outstanding scholars and clinicians      *Communication and Health* Eileen Berlin Ray,Lewis Donohew,2013-11-05 This volume examines this rapidly growing and changing field by applying a unified framework that integrates both interpersonal and mass communication investigations into theoretical and applied issues Using a systems perspective as the organizational framework relevant issues in the communication of health care ranging from micro to macro levels are discussed The contributors recognize communication as a major factor affecting health today and therefore go beyond examinations of health communication as simply a dissemination of information regarding diseases diagnoses and treatments to show it as a much larger and more complex field with applications to all levels and forms of communication Communication and Health has as its three main objecties providing a comprehensive detailed and up to date picture of health communication applying an integrated logical structure to the field making a clear strong statement regarding the state of health communication and examining its future prospects The contributors address such issues as provider patient communication health care teams health care organizations public health campaigns and health education and then discuss the factors that affect the processing of health information Also included are examinations of changes in communication use within interpersonal small group and organizational health care contexts as well as the use of mass media and other sources for public health campaigns and for raising public awareness of health issues on a day to day basis Communication and Health fills a void in current literature on this field by serving as both a reference for professionals and researchers and as a textbook for advanced undergraduate and graduate level students in a multitude of courses      **The Heart's Eye** Paula M. Niedenthal,Shinobu Kitayama,2013-10-22 Recent years have seen a great deal of attention directed towards the so called warm look investigating how cold cognition and hot affect intermingle in perception and decision processes Following in this vein this book discusses conceptual models and research findings with respect to how affect influences non conscious processing The book is divided into two sections the first on affect and perception the second on affect and attention with discussants bringing each section into a cohesive whole      **Handbook of Affective Sciences** Richard J. Davidson,Klaus R. Scherer,H. Hill Goldsmith,2002-12-19 This volume is a comprehensive roadmap to the burgeoning area of affective sciences which now spans several disciplines The Handbook brings together for the first time the various strands of inquiry and latest research in the scientific study of the relationship between the mechanisms of the brain and the psychology of mind In recent years scientists have made considerable advances in understanding how brain processes shape emotions and are changed by

human emotion Drawing on a wide range of neuroimaging techniques neuropsychological assessment and clinical research scientists are beginning to understand the biological mechanisms for emotions As a result researchers are gaining insight into such compelling questions as How do people experience life emotionally Why do people respond so differently to the same experiences What can the face tell us about internal states How does emotion in significant social relationships influence health Are there basic emotions common to all humans This volume brings together the most eminent scholars in the field to present in sixty original chapters the latest research and theories in the field The book is divided into ten sections Neuroscience Autonomic Psychophysiology Genetics and Development Expression Components of Emotion Personality Emotion and Social Processes Adaptation Culture and Evolution Emotion and Psychopathology and Emotion and Health This major new volume will be an invaluable resource for researchers that will define affective sciences for the next decade
