Spirit Of The Machine:

Spirit Machines Robert Crawford, 2011-03-31 SPIRIT MACHINES Robert Crawford's fourth collection attends imaginatively to the fusion of spiritual experience and the insistently material world. In several of the poems emotional and religious insights merge lyrically with modern technologies of information. The title sequence deals with bereavement and memorializes the poet's father who died in 1997 while the serio-comical catechism of *A Life Exam* arises from the experience of hospitalisation. The imaginative 360-line tour de force *Impossibility* presents a swirling underwater world imaging the heroic struggle of the nineteenth-century writer and mother Margaret Oliphant. While some of the poems communicate a sense of hurt and loss others are insuperably comic giving the collection an ambitious range and vitality. Throughout the book Robert Crawford's alert sense of Scotland provides a source and sounding board for poems lyrics ballads verse narratives and prose poems that are finely nuanced moving and excitingly resourceful. **Triumphs of Enterprise, Ingenuity, and**

Puppet and Spirit: Ritual, Religion, and Performing Objects Claudia Orenstein, Tim Cusack, 2024-10-17 This anthology of essays a companion to *Puppet and Spirit: Ritual Religion and Performing Objects* Volume I aims to explore the many types of relationships that exist between puppets broadly speaking and the immaterial world. The allure of the puppet goes beyond its material presence as historically and throughout the globe many uses of puppets and related objects have expressed and capitalized on their posited connections to other realms or ability to serve as vessels or conduits for immaterial presence. The flip side of the puppet's troubling uncanniness is precisely the possibilities it represents for connecting to discarnate realities. Where do we see such connections in contemporary artistic work in various mediums? How do puppets open avenues for discussion in a world that seems to be increasingly polarized around religious values? How do we describe analyze and theorize the present moment? What new questions do puppets address for our times and how does the puppet's continued entanglement with these concerns trouble or comfort us? The essays in this book from scholars and practitioners provide a range of useful models and critical vocabularies for addressing this aspect of puppet performance further expanding the growing understanding and appreciation of puppetry generally. This book along with its companion volume offers for the first time robust coverage of this subject from a diversity of voices examples and perspectives. *Journal of the Society of Dyers and Colourists* Society of Dyers and Colourists, 1908 For all interested in the use or manufacture of colours and in calico printing bleaching etc **The Spirit World** Clarence Larkin, 1921 In this day of the revival of Spiritism when so many through the loss of loved ones in the Great World War are longing to communicate with the dead and are resorting to

forbidden means to that end a day in which science is trying to discover whether there is another world than this and whether men live after death and if so can they communicate with the living it seems timely that a book should be written to show what the Holy Scriptures have revealed of the World of Spirits The Bible has much to say about the Spirit World and if we will carefully search its pages we shall know all there is to be known in this life of the World to Come For if men will not listen to Moses and the Prophets they will not be persuaded though one rose or came back from the dead Luke 16 31
