Interim Report on Excavations at the Tatham Mound, Citrus County, Florida Jeffrey M. Mitchem,Dale L. Hutchinson,1986 Tatham Mound , **Tatham Mound** Piers Anthony,1994 Das abenteuerreiche Leben eines indianischen Geschichtenerz hlers spiegelt zugleich den Untergang der traditionsreichen Kulturen im S dosten der heutigen USA nach der spanischen Eroberung *Tatham Mound* Michelle K. Beitman,2001 *Tatham Mound and the Bioarchaeology of European Contact* Dale L. Hutchinson,2006 Bioarchaeological Studies of Life in the Age of Agriculture Patricia M. Lambert,2000-02-09 Investigations of skeletal remains from key archaeological sites reveal new data and offer insights on prehistoric life and health in the Southeast The shift from foraging to farming had important health consequences for prehistoric peoples but variations in health existed within communities that had made this transition This new collection draws on the rich bioarchaeological record of the Southeastern United States to explore variability in health and behavior within the age of agriculture It offers new perspectives on human adaptation to various geographic and cultural landscapes across the entire Southeast from Texas to Virginia and presents new data from both classic and little known sites The contributors question the reliance on simple cause and effect relationships in human health and behavior by addressing such key bioarchaeological issues as disease history and epidemiology dietary composition and sufficiency workload stress patterns of violence mortuary practices and biological consequences of European contact They also advance our understanding of agriculture by showing that uses of maize were more varied than has been previously supposed Representing some of the best work being done today by physical anthropologists this volume provides new insights into human adaptation for both archaeologists and osteologists It attests to the heterogeneous character of Southeastern societies during the late prehistoric and early historic periods while effectively detailing the many factors that have shaped biocultural evolution **Interim Report on Archaeological Research at the Tatham Mound, Citrus County, Florida** Jeffrey M. Mitchem,Dale L. Hutchinson,1987 A Road Course in Early American Literature Thomas Hallock,2021-02-23 A Road Course in Early American Literature Travel and Teaching from Atzl n to Amherst explores a two part question what does travel teach us about literature and how can reading guide us to a deeper understanding of place and identity Thomas Hallock charts a teacher s journey to answering these questions framing personal experiences around the continued need for a survey course covering early American literature up to the mid nineteenth century Hallock approaches literary study from the overlapping perspectives of pedagogue scholar unrepentant tourist husband father friend and son Building on Ralph Waldo Emerson s premise that there is creative reading as well as creative writing Hallock turns to the vibrant and accessible tradition of American travel writing employing the form of biblio memoir to bridge the impasse between public and academic discourse and reintroduce the dynamic field of early American literature to wider audiences Hallock s own

road course begins and ends at the Lowcountry of Georgia and South Carolina following a circular structure of reflection He weaves his journey through a wide swath of American literatures and authors from Native American and African American oral traditions to Wheatley and Equiano through Emerson Poe and Dickinson among others A series of longer place oriented narratives explore familiar and lesser known literary works from the sixteenth century invasion of Florida through the Mexican War of 1846 1848 and the American Civil War Shorter chapters bridge the book s central themes the mapping of cognitive and physical space our personal stake in reading the tensions that follow earlier acts of erasure and the impossibility of ever fully shutting out the past Exploring complex cultural histories and contemporary landscapes filled with ghosts and new voices this volume draws inspiration from a tradition of travel place oriented and literature based works ranging from William Carlos Williams s *In the American Grain* and Jack Kerouac s *On the Road* to Alice Walker s *In Search of Our Mother s Gardens* Wendy Lesser s *Why I Read* The Serious Pleasure of Books and Rebecca Mead s *My Life in Middlemarch* An accompanying bibliographic essay is periodically updated and available at Hallock s website www.roadcourse.us

Routledge Handbook of the Archaeology of Indigenous-Colonial Interaction in the Americas Lee M. Panich,Sara L. Gonzalez,2021-07-19 The Routledge Handbook of the Archaeology of Indigenous Colonial Interaction in the Americas brings together scholars from across the hemisphere to examine how archaeology can highlight the myriad ways that Indigenous people have negotiated colonial systems from the fifteenth century through to today The contributions offer a comprehensive look at where the archaeology of colonialism has been and where it is heading Geographically diverse case studies highlight longstanding theoretical and methodological issues as well as emerging topics

in the field The organization of chapters by key issues and topics rather than by geography fosters exploration of the commonalities and contrasts between historical contingencies and scholarly interpretations Throughout the volume Indigenous and non Indigenous contributors grapple with the continued colonial nature of archaeology and highlight Native perspectives on the potential of using archaeology to remember and tell colonial histories This volume is the ideal starting point for students interested in how archaeology can illuminate Indigenous agency in colonial settings Professionals including academic and cultural resource management archaeologists will find it a convenient reference for a range of topics related to the archaeology of colonialism in the Americas

Archaeology in America Linda S. Cordell, Kent Lightfoot, Francis McManamon, George Milner, 2008-12-30 The greatness of America is right under our feet The American past the people battles industry and homes can be found not only in libraries and museums but also in hundreds of archaeological sites that scientists investigate with great care These sites are not in distant lands accessible only by research scientists but nearby almost every locale possesses a parcel of land worthy of archaeological exploration Archaeology in America is the first resource that provides students researchers and anyone interested in their local history with a survey of the most important archaeological discoveries in North America Leading scholars most with an intimate knowledge of the area have written in depth essays on over 300 of the most important archaeological sites that explain the importance of the site the history of the people who left the artifacts and the nature of the ongoing research Archaeology in America divides its coverage into 8 regions the Arctic and Subarctic the Great Basin and Plateau the Great Plains and Rocky Mountains the Midwest the Northeast the Southeast the Southwest and the West Coast Each entry provides readers with an accessible overview of the archaeological site as well as books and articles for further research

Bioarchaeology of the Florida Gulf Coast Dale L. Hutchinson, 2019-12-09 In *Bioarchaeology of the Florida Gulf Coast* Dale Hutchinson explores the role of human adaptation along the Gulf Coast of Florida and the influence of coastal foraging on several indigenous Florida populations The Sarasota landmark known as Historic Spanish Point has captured the attention of historians and archaeologists for over 150 years This picturesque location includes remnants of a prehistoric Indian village and a massive ancient burial mound known to archaeologists as the Palmer Site that is one of the largest mortuary sites uncovered in the southeastern United States Interpreting the Palmer population numbering over 400 burials circa 800 A D by analyzing such topics as health and diet trauma and demography Hutchinson provides a unique view of a post Archaic group of Indians who lived by hunting collecting and fishing rather than by agriculture This book provides new data that support a general absence of agriculture among Florida Gulf Coast populations within the context of great similarities but also substantial differences in nutrition and health Along the central and southern Florida Gulf Coast multiple lines of evidence such as site architecture settlement density and size changes in ceramic technology and the diversity of shell and stone tools suggest that this period was one of emerging social and political complexity accompanied by population growth The comparisons between the Florida

Gulf Coast and other coastal regions illuminate our understanding of coastal adaptation while comparisons with interior populations further stimulate thoughts regarding the process of culture change during the agricultural era A volume in the Florida Museum of Natural History Ripley P Bullen Series **The Florida Anthropologist**, 1996 Contains papers of the Annual Conference on Historic Site Archeology **The De Soto Chronicles, 2 Volume Set** Lawrence A.
