The Hive Poems:

The Hive Susan Stewart, 2008-08-01 At the crossroads of science mathematics and art lives Quiver a stunning new collection of poems that seeks to reconcile the empirical truths of science with the emotional truths of human experience Through an ambitious set of poetic series and sequences Somers Willett re invents the love poem conjuring a voyeuristic affair between a radio astronomer and Dark Matter radium s atomic aubade for Marie and Pierre Curie and the shrill love song of Gregor Mendel s cross pollinated pea plants With intelligence and wonder Quiver comes to understand the pursuits of science and beauty as one and the same rendering an exquisite world where the graph of a mathematical equation can become the image of love s witness running with its arms open all the way home In deft musical lyrics that are by turns formal and experimental studied and accessible meditative and pragmatic Somers Willett portrays scientific phenomena in strikingly intimate ways Every mystery connects in her universe revealing a relationship between science and human sentiment that is as surprising as it is profound University of Georgia Press

The Hive Gerry Grubbs, 2013 Poetry Gerry Grubbs is an apiarist of the ineffable of that which is at once of bodily evanescence yet eternal that is to say he is a keeper of Rilke s invisible hive In preamble to his new book of poems *THE HIVE IS A BOOK WE READ FOR ITS HONEY* he quotes Rilke s famous lines We are the bees of the invisible We wildly collect the honey of the visible to store it in the great golden hive of the invisible An act of transformation where our task is to take this earth so deeply and wholly into ourselves that it will resurrect within our being The poems in Gerry Grubbs book are like the bees themselves discrete entities yet everywhere universal quietly going about the miracle that is the sustain of being For as Thoreau reminded us of the extraordinary in the every day of the ordinary We live in a world where there are flowers where between the bee and the flower is a remarkable gentle and mysterious alchemy at transformative work So too there is in Gerry Grubbs poems that which goes on between the reader and the flower of his words the active build of the hive of language where the invisible honey is stored Where we are in apprehension and appreciation of that quotidian which is as much the numinous Robert Murphy *Hive*, 2014

In the Nocturnal Animal House Sarah Cotterill, 1991 Sarah Cotterill s poems bring together the dramas of ordinary life and a complex understanding of the natural world The poems are moments of suspension early bridges braided of things found on the ground in the wild They are meant for travel on foot and in solitude When we trust our weight to one the whole of the bridge shifts though the lines and their connections remain firm and the bridge shifts again with each step Its symmetry changes our perspective changes We are exposed reminded of the delicacy of its materials and of their strength tensile strength On ever side looms the world s great beauty and also its peril the long drop The flexibility of a web accounts for much of its strength and resiliency So too are these poems shaped by a lyric flexible resilient language a range and variability of image form and tone But always they are tied to the poet s experience the great and small events of a private life at once lived and observed These poems never stray far from awareness of the strangeness elegance and peril of the natural world or

of humankind's place therein. They never stray far either from a sense of the fragility of human ties, their infinite worth, the care which must be taken to sustain them, the costs of inattention. These poems are moments of suspension. They begin on ground we know. When we step away from the far close of their span, we find ourselves in a new place. Lucky for the bridge being there. Grateful.

The Hive Burning Sarah Cotterill, 1983 *If Bees Are Few* Bill McKibben, Marla Spivak, 2016. It is said there are 20,000 species of bees, a genus 50 million years old, but in the fertile imagination of the world's poets, there is no beginning or end to the bee buzz. Virgil wrote of bees, as did Rumi, Shakespeare, Burns, Coleridge, Emerson, Mandelstam, Neruda, Whitman, a lyrical hum heard well into the twentieth and twenty-first centuries in poems by Yeats, Lawrence, Plath, Mary Oliver, Carol Ann Duffy, Naomi Shihab Nye, and Sherman Alexie, among many others. The title of this book is from Emily Dickinson: "To make a prairie it takes a clover and one bee, One clover and a bee, And revery. The revery alone will do. If bees are few." Her conclusion resonates with a terrible poignancy today, as bees are indeed becoming few, hives collapsing, wild species disappearing. Amid this crisis, the poems collected here speak with a quiet urgency of a world lost if bees were to fall silent. If anyone can save the bees, it is entomologist Dr. Marla Spivak and the hive of bee scientists and beekeepers at the Bee Lab at the University of Minnesota. A portion of the author's proceeds from this anthology will be donated to support research at the Bee Lab.

The Hive. A Selection of Poems, Chiefly from the Works of Living Authors. Intended for the Perusal of Young Persons HIVE, 1832 *A Hive for Bees* Richard Hazley, 1979 **The Hive**, 2017-05-24. Excerpt from *The Hive: A Collection of the Most Celebrated Songs of Our Best English Poets*. While tedious authors give the reader pain, weary his thoughts, and make him toil in vain, 5. Laughter from the Hive Kate Foley, 2004 Lessons from the Hive Liina Liblikas, 2024-08-13. Drawing inspiration from the delicate and industrious world of bees, each poem is a journey through the cycles of life, love, and transformation.

The Hive Paul Thomas Andre, 2020-05-28. A lost soul finds peace in a concrete hive in Asia, as life outside carries on. He struggles to communicate and to adapt, but the image of a loved one melts the metal bars, as his poetry ignites.

The Voice of the Hive Ric Masten, 1978 *The Human Hive* John Looker, 2015-01-14. This highly original collection of poetry by John Looker, published by Bennison Books, takes as its theme the idea of human work in all its forms. We are invited to share an epic journey with him through time and across continents, and what a journey it is. With economy and intelligence, he spans the globe and navigates our common history over millennia. Here we meet our ancient

ancestors as they conjure with possibility a humble vegetable grower rebelling against the tyranny of straight rows and a dancer longing for a break and recognition at last We are taken inside the confines of a submarine join a businesswoman locked outside on a hotel balcony and witness a high profile ambassador s very public fall from grace The long poem The Night Shift is a tour de force Its lyrical almost elegiac opening stanza draws us into a world many of us will never experience The world is turning and a longitudinal arc dips slowly away from the sun towards the darkness Somewhere along this littoral lies our city These delicately evocative lines soon give way to the gritty reality of law enforcement hospital workers chefs doormen and maintenance workers in tunnels of primordial quiet and darkness Equally compelling is our early morning call in Master Baker when only monks rung into church for matins know this as a time to begin We can watch the baker at work as he fetches the dough echoing the ancient arts of Egypt Rome and the East We can smell the yeast and warm bread and feel the need to dust the flour from our sleeve as we turn the page This is exquisitely wrought poetry documenting an extraordinary journey from the timeless sweep of The Silk Road and the lost Milky Way to a single tear in the eye of a 1950s housewife John Looker is a gifted and accomplished poet and we could not ask for a better travelling companion The Hive. A Selection of Poems, Chiefly from the Works of Living Authors. Intended for the Perusal of Young Persons HIVE.,1832
