Holy Rulers and Blessed Princesses Gábor Klaniczay, 2002-03-14 Medieval dynasties frequently relied upon the cult of royal saints for legitimacy After the early medieval emergence of this type of sainthood in the central Middle Ages most royal dynasties had saints in their family Edward the Confessor Olaf Canute Louis IX Charlemagne the Emperor Henry II and Wenceslas are some of the best known examples Within this context the saints of the Hungarian ruling dynasty the Arpadians constitute a remarkable sequence St Stephen St Emeric St Ladislas St Elizabeth St Margaret and other central European blessed princesses whose convents mirrored the Court of Heaven This sequence of dynastic saints provide an example of the late medieval evolution of royal and dynastic sainthood Building upon a series of case studies from Hungary and central Europe G bor Klaniczay proposes a synthesis of the multiple forms and transformations of royal and dynastic sainthood in medieval Europe

The Miraculous Flying House of Loreto Karin Vélez, 2018-12-11 In 1295 a house fell from the evening sky onto an Italian coastal road by the Adriatic Sea Inside awestruck locals encountered the Virgin Mary who explained that this humble mud brick structure was her original residence newly arrived from Nazareth To keep it from the hands of Muslim invaders angels had flown it to Loreto stopping three times along the way This story of the house of Loreto has been read as an allegory of how Catholicism spread peacefully around the world by dropping miraculously from the heavens In this book Karin Vélez calls that interpretation into question by examining historical accounts of the movement of the Holy House across the Mediterranean in the thirteenth century and the Atlantic in the seventeenth century These records indicate vast and voluntary involvement in the project of formulating a branch of Catholic devotion Vélez surveys the efforts of European Jesuits Slavic migrants and indigenous peoples in Baja California Canada and Peru These individuals contributed to the expansion of Catholicism by acting as unofficial authors inadvertent pilgrims unlicensed architects unacknowledged artists and unsolicited cataloguers of Loreto Their participation in portaging Mary's house challenges traditional views of Christianity as a prepackaged European export and instead suggests that Christianity is the cumulative product of thousands of self appointed editors Vélez also demonstrates how miracle narratives can be treated seriously as historical sources that preserve traces of real events Drawing on rich archival materials The Miraculous Flying House of Loreto illustrates how global Catholicism proliferated through independent initiatives of untrained laymen

City of the Beast Phil Baker, 2022-08-16 A work that combines biography and psychogeography to trace Aleister Crowley's life in London I dreamed I was paying a visit to London Aleister Crowley wrote in Italy continuing It was a vivid long coherent detailed affair of several days with so much incident that it would make a good sized volume Crowley had a love hate relationship with London but the city was where he spent much of his adult life and it was the capital of the culture that created him Crowley was a post decadent with deviant Victorian roots

in the cultural ferment of the 1890s and the magical revival of the Golden Dawn Not a walking guide although many routes could be pieced together from its pages this is a biography by sites A fusion of life writing with psychogeography steeped in London s social history from Victoria to the Blitz it draws extensively on unpublished material and offers an exceptionally intimate picture of the Great Beast We follow Crowley as he searches for prostitutes in Hyde Park and Pimlico drinks absinthe and eats Chinese food in Soho and find himself down on his luck in Paddington Green and never quite losing sight of the illumination that drove him the abiding rapture he wrote in his diary which makes a bus in the street sound like an angel choir
