Albert Camus and the Human Crisis Robert E. Meagher, 2021-11-02 A renowned scholar investigates the human crisis that Albert Camus confronted in his world and in ours producing a brilliant study of Camus's life and influence for those readers who in Camus's words cannot live without dialogue and friendship As France and all of the world was emerging from the depths of World War II Camus summed up what he saw as the human crisis We gasp for air among people who believe they are absolutely right whether it be in their machines or their ideas And for all who cannot live without dialogue and the friendship of other human beings this silence is the end of the world In the years after he wrote these words until his death fourteen years later Camus labored to address this crisis arguing for dialogue understanding clarity and truth When he sailed to New York in March 1946 for his first and only visit to the United States he found an ebullient nation celebrating victory Camus warned against the common postwar complacency that took false comfort in the fact that Hitler was dead and the Third Reich had fallen Yes the serpentine beast was dead but we know perfectly well he argued that the venom is not gone that each of us carries it in our own hearts All around him in the postwar world Camus saw disheartening evidence of a global community revealing a heightened indifference to a number of societal ills It is the same indifference to human suffering that we see all around and within ourselves today Camus's voice speaks like few others to the heart of an affliction that infects our country and our world a world divided against itself His generation called him the conscience of Europe That same voice speaks to us and our world today with a moral integrity and eloquence so sorely lacking in the public arena Few authors sixty years after their deaths have more avid readers across more continents than Albert Camus Camus has never been a trend a fad or just a good read He was always and still is a companion a guide a challenge and a light in darkened times This keenly insightful story of an intellectual is an ideal volume for those readers who are first discovering

Camus as well as a penetrating exploration of the author for all those who imagine they have already plumbed Camus depths a supremely timely book on an author whose time has come once again **Writing Exile** Jan Felix Gaertner,2007 The volume explores how Greek and Latin authors perceive and present their own real or metaphorical exile and employ exile as a powerful trope to express estrangement elicit readerly sympathy and question political power structures Writing Exile: The Discourse of Displacement in Greco-Roman Antiquity and Beyond Jan Felix Gaertner,2007-02-28 Exile and displacement are central topics in classical literature Previous research has been mostly biographical and has focused on the three most prominent exiles Cicero Ovid and Seneca By shifting focus to a discourse of exile and displacement in early Greek poetry Greek historiography Cynicism consolatory literature Latin epic Greek literature of the empire and Medieval Latin literature the present volume questions the notion of a distinct psychologically conditioned genre or mode of exile literature It shows how ancient and medieval authors perceive and present their exile according to pre existent literary paradigms style themselves or others as typical exiles and employ exile as a powerful trope to express estrangement elicit readerly sympathy and question political power structures *"If I touch the Depth of Your Heart ... The Human and the Divine in History Paul V. Niskanen, 2004-06-01 The Human and the Divine in History investigates the possibility that the author of Daniel knew and drew upon the Histories of Herodotus Daniel uses and develops Herodotean concepts such as the succession of world empires dynastic dreams and the focus on both human and divine causation in explaining historical events A comparative reading of these two texts illuminates Daniel's theology of history showing it to be neither as exclusively eschatological nor as sectarian as is often supposed Rather it is specifically the end of exile understood as foreign domination that Daniel envisions for the entire Jewish people

Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including Lyrical Ballads Frankenstein and Prometheus Unbound to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular
