The Justice Factory:

The Justice Factory Richard Clements, 2024-01-18 Spend time at the International Criminal Court and you will hear the familiar language of anti impunity Spend longer and you will encounter the less familiar language of management efficiency risk and performance and tools of strategic planning audit and performance appraisal How have these two languages fused within the primary institution of global justice This book explores that question through an historical and conceptually layered account of management s effects on the ICC s global justice project It historicises management forcing international lawyers to look at the sites of struggle from the plantation to the United Nations that have shaped the court s managerial present It traces the court s macro micro and meso scales of management showing how such practices have fashioned a vision of global justice at organisational professional and argumentative levels And it asks how those who care about global justice might engage with managerial justice at an institution animated by forms reforms and the promise of optimisation

The Justice Factory Richard Clements, 2023 Using an historical and theoretical approach Richard Clements explores why global justice and management have become so intimately connected within the International Criminal Court Mapping the ICC s management ideas and practices onto an accessible model Clements highlights the impact of management on the global justice project
