facts

Chocolate is a versatile treat made from the bean of the cacao tree, Theobroma cacao. Cacao bean is very bitter and must be fermented to bring out the chocolate flavour. The three main types of chocolate are white, milk and dark.

Dark chocolate contains more of the bitter cocoa mass. Milk chocolate contains milk powder or condensed milk and has less cocoa mass than dark chocolate. White chocolate contains no cocoa mass at all.

The Science Of Chocolate Milk Making:

The Science of Chocolate S. T. Beckett, 2019 Now in its third edition The Science of Chocolate leads the reader to an understanding of the complete chocolate making process and includes the ways in which basic science plays a vital role in its manufacture testing and consumption

The Science of Chocolate S. Beckett, 2000 Covers the history ingredients and processing techniques used in the manufacture of chocolate

Science of Chocolate Stephen T Beckett, 2018-11-15 The Science of Chocolate leads the reader to an understanding of the complete chocolate making process and includes the ways in which basic science plays a vital role in its manufacture testing and consumption Originally based upon a talk to encourage school children to study science the book is now widely used within industry and academia The third edition of this international best seller has been fully revised and updated The author has now included methods of sensory evaluation designing and modifying chocolate flavour to suit the product and the history and manufacture of some well known confectionery products Fat calorie and sugar reduction are also covered including a review of patents in this area In addition the section on why chocolate might be good for you has been updated to include some more recent research results Three new experiments have been added so there are now twenty of them which use simple materials and apparatus to demonstrate the scientific and mathematical principles found in the rest of the book Most are easily adapted to suit different student abilities This book will appeal to those with a fascination for chocolate and will be of specialist interest to those studying food sciences and working in the confectionery industry

Extracts from reviews of 2nd Edition I found this to be an interesting read and I think the book would be useful to graduates thinking of a career in the food industry and not just the chocolate industry specifically to schoolteachers looking for some interesting experiments and to lecturers Chemistry Biochemistry Botany Food science looking for interesting facts to enliven their lectures Bioscience Education Volume 12 2008 E J Wood very well written and complete book for everyone who wants to learn more about chocolate and its production process Crystallography Reviews Volume 15 2009 Issue 4 pages 275 277 Henk Schenk The easy reading style of the book makes it valuable not only to school and university students but also to those who are new to working with chocolate or those needing a good summary of chocolate science Chemistry World for the Christmas Books
