## **Thinking About Islam:**

**Thinking about Islam** John Bernard Taylor, Raymond Trudigan, 1983 From the Thinking About Religions series a series for people aged 16 which gives a sympathetic account of the practices and beliefs of the world's major faiths Living as we do in a pluralist society with a wide variety of culture and religion the study of world religions can no longer be a rapid survey that does no more than offer the student a slight acquaintance with the historical founder of a faith together with a knowledge of the more unusual customs and traditions associated with his followers who are through of as living in some remote part of the world The religions of the world are on our doorstep in the press and on television if not literally in our road This book one of a series seeks to bring understanding and tolerance in a diverse society and it is the hope of editor authors and publishers that study of this kind will also help the reader to an understanding of his or her own faith at a deeper level Islam has a belief in one God whose authority extends to every part of life It is a complete way of life covering personal behaviour social conventions literature art and politics Its moral obligations are clear and definite Those who practise Islam have a strong feeling of togetherness and a burning desire to do the will of God

**Religion as Critique** Irfan Ahmad, 2017-11-20 Irfan Ahmad makes the far reaching argument that potent systems and modes for self critique as well as critique of others are inherent in Islam indeed critique is integral to its fundamental tenets and practices Challenging common views of Islam as hostile to critical thinking Ahmad delineates thriving traditions of critique in Islamic culture focusing in large part on South Asian traditions Ahmad interrogates Greek and Enlightenment notions of reason and critique and he notes how they are invoked in relation to others including Muslims Drafting an alternative genealogy of critique in Islam Ahmad reads religious teachings and texts drawing on sources in Hindi Urdu Farsi and English and demonstrates how they serve as expressions of critique Throughout he depicts Islam as an agent not an object of critique On a broader level Ahmad expands the idea of critique itself Drawing on his fieldwork among marketplace hawkers in Delhi and Aligarh he construes critique anthropologically as a sociocultural activity in the everyday lives of ordinary Muslims beyond the world of intellectuals Religion as Critique allows space for new theoretical considerations of modernity and change taking on such salient issues as nationhood women's equality the state culture democracy and secularism

**Handbook of Islamic Banking** Kabir Hassan, Mervyn Lewis, 2009-01-01 The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance, specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time it seeks to bring the current research agenda and the main issues on Islamic banking before a wider audience. Islamic banking offers as an alternative to conventional interest based financing methods a wide variety of financial instruments and investment vehicles based on profit and loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.

*Liberal Islam* Charles Kurzman, 1998 This book contends that Liberal Islam is not a contradiction in terms but rather a thriving tradition more than a century old and undergoing a revival within the last generation. This anthology presents the translated work of 32 Muslims who are concerned with the separation of church and state, democracy, the condition of women, the rights of minorities, freedom of thought and the future of human progress.

**New Thinking in Islam** Katajun Amirpur, 2016-11-15 In *Rethinking Islam* Katajun Amirpur argues that the West's impression of Islam as a backward looking faith resistant to post-Enlightenment thinking is misleading and due to its effects on political discourse, damaging. Introducing readers to key thinkers and activists such as Abu Zaid, a free thinking Egyptian; Qur'an scholar Abdolkarim Soroush, an academic and former member of Khomeini's Cultural Revolution Committee; and Amina Wadud, an American feminist who was the first woman to lead the faithful in Friday Prayer, Amirpur reveals a powerful yet lesser known tradition of inquiry and dissent within Islam, one that is committed to democracy and human rights. By examining these and many other similar figures, ideas she reveals

the many ways they reject fundamentalist assertions and instead call for a diversity of opinion greater freedom and equality of the sexes

*A Short History of Islamic Thought* FITZROY. MORRISSEY, 2021-11-11 A scholarly yet accessible history of Islamic thought from its foundation in the seventh century to the present day in 250 pages from a brilliant historian of the Islamic world Day after day we read of the caliphate and the Qur'an of Sunni and Shi'a Salafis and Sufis integration and isolation radicals and refugees Almost a quarter of the world's population is Muslim It is clear that understanding the modern world requires knowing something about Islam But while much is said and written about Islam and the global trends and historic events connected to it little attention is given to placing these phenomena within their greater historical religious and intellectual context Tracing thirteen centuries of Islamic history from the foundation of Islam in the seventh century and the life of Muhammad through the Crusades in the Middle East and the growth of great empires to the often fraught 21st century *A Short History of Islamic Thought* considers questions of interpretation and legacy of God and his relationship with his followers of the lives of Muslims and how they relate to others Through these questions Fitzroy Morrissey presents not a monolithic creed but a nuanced faith made up of four intellectual tendencies that share so much and differ greatly *A Short History of Islamic Thought* is a concise and engaging volume that will appeal to non-Muslim readers looking to better understand the world's second largest religion as well as Muslims seeking a background to the historical dimensions of their faith and those interested in the intellectual history of the last millennium and a half
