**The Third Level of Existence** Steven D. Brock,2004-12 The amazing account of the mystical experiences of Steve made possible by his teacher Tor They would change his life forever What happens next is as shocking as it is beautiful **The Hierarchy of Intelligences** Valentin Matcas,2015-09-03 You are a conscious intelligent living being yet you are more than an individual being since you are an entire living compound made of distinct living beings all forming you all contributing to your unique life and existence Because you are your trillions of living cells composing your body one after another And with each cell you are a zillion subcellular components forming you one molecule at a time and one cell near another designing or creating your life one fulfillment at a time and one moment of existence after another animating you from within in this manner from the smallest subcellular level Since this is who you are only at the physical objective level while all living beings generate sustain and coordinate continuously a multitude of intelligent modulations throughout the physical brain and entire body forming your entire cognition living intelligent impulses associated to your mind consciousness awareness and intelligence From the physical perspective of your body these are simple encoded impulses within your neurons and therefore within your entire mind and everybody has them capable to sustain entire inner cognitive instances forming together your cognitive system your entire mind in all its thoughts awareness feelings and reactions But then from an inner cognitive perspective all these physical impulses become alive making everything possible throughout your mind organism life and entire world in a living intelligent manner since these are your intelligences All your intelligences are aware conscious and certainly intelligent and through their own consciousness and intelligence they give you your entire mind in all its cognitive abilities becoming everything that you truly are More precisely your intelligences form your mind altogether since the human mind is their living world while your intelligences perform the entire cognitive activity within just for you and for the entire organism And now their continuous existence is your life while their purpose becomes your meaning achievement learning and subsistence Since among all your intelligences you are the conscious intelligence yourself specialized in the coordination of the entire organism in the outside world while fulfilling its needs or while fulfilling your needs since it is the same Because your intelligences have their own specialized tasks and needs together forming not only your mind but your entire life in its entire existence Yet these are only your own intelligences the human intelligences while throughout this book we focus on all intelligences of the wider world including these This book studies all intelligences from living cognitive interconnective and existential perspectives throughout a comprehensive classification of everything alive and intelligent helping you understand yourself life intelligence consciousness the world and your conscious place meaning and fulfillment in life and in the world **The Human Origins** Valentin Matcas,2016-04-20 There is more to the human origins development intelligence and civilization than the epic debate Creationism versus Evolution simply because there is more to the human condition than what authorities and ideologies want you to believe Therefore when you study the human

origins you have to search beyond the moment when the first humans had detached from the firmament or previous species since there are other significant events in humanity's lifespan and achievement defining its specific timeline. While you have to study everything otherwise you risk understanding these significant events only from simplistic empirical or ideological perspectives ending up learning what you already know while following the crowd throughout unending debates. Since you want the accurate truth because you already know all theories, beliefs, speculations, and debates regarding the human origins. And this is why when you study the human origins you expect to understand everything about the origins of life, the nature and origins of this world, the nature of the human higher self and intelligence, the origins and debut of the human consciousness and human intelligent reasoning along with all details related to the Creator of this entire world of Life and of humanity. Additionally, it is relevant to know how all these affect you personally and how they affect your family, your genetic line, and your nation, how your family and genetic line originate, where and how it happened under what circumstances and with what status and privileges for you, for your family, for your nation, and for humankind. And this is exactly what we cover throughout this book in all details and from all perspectives. This book studies the human origins along with the origins of life, human intelligence, human species, human development, human society, human current civilization along with various past civilizations of Earth, integrating humans, their origins, and their original and current conditions in an elaborate comprehensive model.

Life Valentin Matcas, 2014-04-20. You are an intelligent living human being and in order to assure your meaning and success throughout life, you have to know everything about life everywhere in all forms and realities. You have to learn everything about nature, society, and organic life, about the true origins of life, about creating life, and about the divine and about your own meaning in life and in the world as an intelligent living human being. While these are not random ideas, but these specific needs for higher knowledge are embedded continuously within your own higher level intelligent needs and meanings, just because this is the case with all intelligent life. But is this important knowledge about life actually available to you and everyone else? Yes or no, since there are many instances to consider. Yet when you are capable to find the necessary knowledge about life, meaning, society, and the world, you are truly capable to live your life at the intelligent human level. While if you cannot find it, you keep on searching since your own higher level needs and meanings never leave you alone until you learn everything necessary in life and in the world. And so you do otherwise, you end up living your life on lower developmental levels, addicted in servitude or only intuitively through animal instincts. And it certainly matters, just because you are an intelligent living human being by nature, now forced to live life below your level, unfulfilled and even punished intrinsically for your continuous failure. But where exactly can you find this important knowledge? Who can shine a living light on the accurate truth? Do you still wait for science to do so when science had already offered you everything that it knows since high school? Throughout this book, we model life in all significant details as we study everything alive and intelligent from the smallest cellular components to the entire human body, mind, and spirit, and to all forms of life, because everything is

alive and meaningful in the world If you want to learn more about life in all forms and realities this book is for you *Stay in Shape, Lead a Healthy Life* Valentin Matcas,2016-04-20 How can you eat as much as you desire while staying slim and attractive for life enjoying your good health and your youthful vitality And if you ever become sick how can you regain your good health and maintain it indefinitely Even more how can you prolong your life as much as possible remaining young looking strong and vibrant continuously These are essential questions and you should always consider them since you should always be able to lose weight and maintain your good health with ease because your body and mind can remain proper and fit for as long as they are not harmed or unbalanced And even when they are harmed or unbalanced your body and mind can still recover on their own to offer you good health sustained vitality and a beautiful young appearance This is exactly what you want but how can you achieve it Because you have tried everything as you still gain weight Additionally you feel weak many times even depressed while you become sick too And since it happens to everybody is it actually your fault Why is everybody sick weak tired overweight wrinkled on stimulants on medication and on all drugs Why can you not remain healthy indefinitely the way you should and the way your body and mind are supposed to offer These are important questions while their answer is rather simple Since many times a variety of factors harm your body and mind even continuously for various reasons and now your body and mind cannot recover unless you identify understand and counteract these main factors first Therefore in order for you to have your good health vitality happiness vibrancy and good appearance you have to find out what harms your body and mind in the first place along with everything keeping them unbalanced and you solve it Because throughout life and throughout the world you always have causes generating effects generating causes generating effects in very large lines of causality and this is why you have to find these main problems generating the entire line of causality affecting your health vitality feelings and appearance Otherwise you end up solving effects and symptoms but not main causes while your problems persist These keep manifesting while your mind and body are doomed to remain sick weak and dreadful indefinitely Since this is how people suffer and die for these main causes for these hidden ignored or unidentified problems as these are numerous throughout life and society affecting you continuously What main causes exactly The main causes determining you to eat excessively and therefore to gain weight yet there are other main causes affecting you continuously which are just as dreadful Because just by attempting to stop eating as you do during diets you never arrive to lose weight since you never solve the main causes making you hungry in the first place with all consequences piling up and intensifying While there are many main causes interfering right now with your health feelings vitality proper reasoning happiness and bodily appearance and you should know them well Because in general people focus on everything else while attempting to lose weight they focus on their symptoms and effects but not on the main dreadful factors causing these And it never works Throughout this book you learn everything about health nutrition and fitness helping you stay slim healthy vigorous happy vibrant and attractive for life while helping you identify and avoid many problems and illnesses If you seek
