[The Tropics of Empire](#) Nicolas Wey Gomez, 2008-06-13 A radical revision of the geographical history of the discovery of the Americas that links Columbus s southbound route with colonialism slavery and today s divide between the industrialized North and the developing South Everyone knows that in 1492 Christopher Columbus sailed west across the Atlantic seeking a new route to the East Few note however that Columbus s intention was also to sail south to the tropics In *The Tropics of Empire* Nicol s Wey G mez rewrites the geographical history of the discovery

of the Americas casting it as part of Europe's reawakening to the natural and human resources of the South. Wey Gmez shows that Columbus shared in a scientific and technical tradition that linked terrestrial latitude to the nature of places and that he drew a highly consequential distinction between the higher cooler latitudes of Mediterranean Europe and the globe's lower hotter latitudes. The legacy of Columbus's assumptions Wey Gmez contends ranges from colonialism and slavery in the early Caribbean to the present divide between the industrialized North and the developing South. This distinction between North and South allowed Columbus to believe not only that he was heading toward the largest and richest lands on the globe but also that the people he would encounter there were bound to possess a nature whether childish or monstrous that seemed to justify rendering them Europe's subjects or slaves. The political lessons Columbus drew from this distinction provided legitimacy to a process of territorial expansion that was increasingly being construed as the discovery of the vast and unexpectedly productive torrid zone. *The Tropics of Empire* investigates the complicated nexus between place and colonialism in Columbus's invention of the American tropics. It tells the story of a culture intent on remaining the moral center of an expanding geography that was slowly relegating Europe to the northern fringe of the globe. Wey Gmez draws on sources that include official debates over Columbus's proposal to the Spanish crown, Columbus's own writings and annotations and accounts by early biographers. *The Tropics of Empire* is illustrated by color reproductions of period maps that make vivid the geographical conceptions of Columbus and his contemporaries. *Interviews with Latin American Writers* Marie-Lise Gazarian-Gautier, 1992. [Hispanic Literature Criticism](#) Jelena O. Krstovic, 1994. Hispanic literature criticism presents a selection of the best criticism of works by major Hispanic writers of the past one hundred years.
