Village War:

The Griffith Project, The Volume 7 Paolo Cherchi Usai, 2019-07-25 No other silent film director has been as extensively studied as D W Griffith However only a small group of his more than five hundred films has been the subject of a systematic analysis and the vast majority of his other works still await proper examination For the first time in film studies the complete creative output of Griffith from Professional Jealousy 1907 to The Struggle 1931 will be explored in this multivolume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival the Griffith Project is an indispensable guide to the work of a crucial figure in the arts of the nineteenth century This volume covers the year 1913 and includes J B Kaufman s notes on the Griffith supervised Liberty Belles and A Fair Rebel as well as Griffith s first feature Judith of Bethulia **"The Next War"** Will Irwin, 1921 **The Great War in the Argonne Forest** Richard Merry, 2020-12-02 This vividly written account of the epic four year campaign is particularly worth reading for aspects of the Great War rarely discussed in other texts Roads to the Great War The annals of the First World War record the Argonne Forest as the epicenter of the famous Meuse Argonne offensive of 1918 the largest American operation launched against the Germans during the conflict During 1914 and 1915 though amid the dense forest French and Italian soldiers withstood the German assaults All sides suffered horrendous casualties as each sought to break through the lines The epic four year campaign is the subject of Richard Merry s vividly written account His great uncle arrived there in September 1914 and started corresponding with his family Richard traces the stories of some of the men and women who became embroiled in the epic forest struggle that culminated in the cold gas filled autumnal mist of 1918 when the New Yorkers of the 77th Liberty Division fought there One of their number Charles Whittlesey and his Lost Battalion held out against insurmountable odds Sergeant Alvin York the Tennessee backwoodsman and pacifist overcame his religious convictions and wrote himself into American military history The story does not end there the author describes the aftermath of war in the area the lethal outbreak of Spanish flu the reburial of the dead the rebuilding of the villages and the replanting of the forest before the Germans invaded again in 1940 Man in Adaptation Yehudi A. Cohen, 2022-04-19 Underlying the anthropological study of man is the principle that there is a reality to which man must adapt if he is to survive Reproduce and to perpetuate himself Populations must adapt to the realities of the physical world and maintain a proper fit between their biological makeup and the pressures of the various niches of the world in which they seek to live Social groups where culture is found must develop adaptive mechanisms in the organization of their social relations if there is to be order regularity and predictability in patterns of cooperation and competition and if they are to survive as viable units This three volume set of readings presents an introduction to anthropology that is unified and made systematic by focus on adaptations that have accompanied the evolution of man from non human primate to inhabitant of vast urban areas in modern industrial societies Man in Adaptation The Cultural Present introduces Cultural

Anthropology also from the point of view of adaptation and provides coherence for the study of human societies from man's social beginnings to the present. The book deals sequentially with the more and more complex technologies and political and social structures that have enabled different societies to make effective use of the energy potentials in their habitats. This and the two companion volumes are the first attempt to unify the disparate subject matter of anthropology within a single and powerful explanatory framework. They incorporate the work of the most renowned anthropological experts on man and they illuminate clearly one of the most important concepts around which one can build an investigation of the nature and scope of anthropology itself. For these reasons they are recognized as indispensable reading for every professional anthropologist and as perhaps the best available means of introducing new students to the field.

British Culture and the First World War
George Robb, 2017-09-16 The First World War has left its imprint on British society and the popular imagination to an extent almost unparalleled in modern history. Its legacy of mass death, mechanized slaughter, propaganda, and disillusionment swept away long-standing romanticized images of warfare and continues to haunt the modern consciousness. Focusing on the lives of ordinary Britons, George Robb's engaging new study seeks to comprehend what it meant for an entire society to undergo the tremendous shocks and demands of total war, how it attempted to make sense of the conflict, explain it to others, and deal with the war's legacies. British Culture and the First World War examines the war's impact on ideologies of race, class, and gender; the government's efforts to manage news and to promote patriotism; the role of the arts and sciences; and the commemoration of the war in the decades since. Synthesizes much of the best and most recent scholarship on the social and cultural history of the war. Reclaims a great deal of neglected or forgotten popular cultural sources such as films, cartoons, juvenile literature, and pulp fiction. Compact but comprehensive, this accessible and refreshing text is essential reading for anyone interested in British society and culture during the turbulent years of the First World War.

The Ending of Tribal Wars
Jürg Helbling, Tobias Schwoerer, 2021-03-24 All over the world and throughout millennia, states have attempted to subjugate, control, and dominate non-state populations and to end their wars. This book compares such processes of pacification leading to the end of tribal warfare in seven societies from all over the world between the 19th and 21st centuries. It shows that pacification cannot be understood solely as a unilateral imposition of state control but needs to be approached as the result of specific interactions between state actors and non-state local groups. Indigenous groups usually had options in deciding between accepting and resisting state control. State actors often had to make concessions or form alliances with indigenous groups in order to pursue their goals. Incentives given to local groups sometimes played a more important role in ending warfare than repression. In this way, indigenous groups in interaction with state actors strongly shaped the character of the process of pacification. This volume's comparison finds that pacification is more successful and more durable where state actors mainly focus on selective incentives for local groups to renounce warfare, offer protection, and only as a last resort use moderate

repression combined with the quick establishment of effective institutions for peaceful conflict settlement

The Columbia History of the Vietnam War David L. Anderson, 2010-12-05 America's experience in Vietnam continues to figure prominently in debates over strategy and defense and within the discourse on the identity of the United States as a nation. Through fifteen essays rooted in recent scholarship *The Columbia History of the Vietnam War* is a chronological and critical collective history central to any discussion of America's interests abroad. David Anderson opens with an essay on the Vietnam War's major themes and enduring relevance. Mark Philip Bradley, University of Chicago, reexamines the rise of Vietnamese revolutionary nationalism and the Vietminh-led war against French colonialism. Richard Immerman, Temple University, revisits Eisenhower's and Kennedy's efforts at nation building in South Vietnam. Gary Hess, Bowling Green State University, reviews America's military commitment under Kennedy and Johnson, and Lloyd Gardner, Rutgers University, investigates the motivations behind Johnson's escalation of force. Robert McMahon, Ohio State University, focuses on the pivotal period before and after the Tet Offensive, and Jeffrey Kimball, Miami University, makes sense of Nixon's paradoxical decision to end U.S. intervention while pursuing a destructive air war. John Prados, National Security Archive, and Eric Bergerud, Naval Postgraduate School, devote their essays to America's military strategy. Helen Anderson, California State University, Monterey Bay, and Robert Brigham, Vassar College, explore the war's impact on Vietnamese women and urban culture. Melvin Small, Wayne State University, recounts the domestic tensions created by America's involvement in Vietnam, and Kenton Clymer, Northern Illinois University, follows the spread of the war to Laos and Cambodia. Concluding essays by Robert Schulzinger, University of Colorado, and George Herring, University of Kentucky, trace the legacy of the war within Vietnamese and American contexts and diagnose the symptoms of the Vietnam Syndrome evident in later U.S. foreign policy debate.

Hunt, 2018-02-05 During the Vietnam War the United States embarked on an unusual crusade on behalf of the government of South Vietnam. Known as the pacification program, it sought to help South Vietnam's government take root and survive as an independent legitimate entity by defeating communist insurgents and promoting economic development and political reforms. In this book, Richard Hunt provides the first comprehensive history of America's battle for hearts and minds, the distinctive blending of military and political approaches that took aim at the essence of the struggle between North and South Vietnam. Hunt concentrates on the American role, setting pacification in the larger political context of nation building. He describes the search for the best combination of military and political action, incorporating analysis of the controversial Phoenix program and illuminates the difficulties the Americans encountered with their sometimes reluctant ally. The author explains how hard

it was to get the U S Army involved in pacification and shows the struggle to yoke divergent organizations military civilian and intelligence agencies to serve one common goal The greatest challenge of all was to persuade a surrogate the Saigon government to carry out programs and to make reforms conceived of by American officials The book concludes with a careful assessment of pacification s successes and failures Would the Saigon government have flourished if there had been more time to consolidate the gains of pacification Or was the regime so fundamentally flawed that its demise was preordained by its internal contradictions This pathbreaking book offers startling and provocative answers to these and other important questions about our Vietnam experience
