Violent Justice:

International and Comparative Criminal Justice and Urban Governance Adam Crawford, 2011-06-02 Criminal justice has traditionally been associated with the nation state its legitimacy and its authority The growing internationalisation of crime control raises crucial and complex questions about the future shape of justice and urban governance as these are experienced at local national and international realms The emergence of new international justice institutions such as the International Criminal Court the greater movement of people and goods across national borders and the transfer of criminal justice policies between different jurisdictions all present novel challenges to criminal justice systems as well as our understandings of criminal justice This volume of essays explores the implications and impact of criminal justice developments in an increasingly globalised world It offers cutting edge conceptual contributions from leading international commentators organised around the themes of international criminal justice institutions and practices comparative penal policies and international and comparative urban governance and crime control

The Ethic of Traditional Communities and the Spirit of Healing Justice Jarem Sawatsky, 2009-01-01 In this groundbreaking international comparative study on healing justice the author examines a number of traditional communities Sawatsky identifies the common patterns themes and imagination which these communities share These commonalities among those that practice healing justice are then examined for their implications for wider society

[Governing Through Globalised Crime](#) Mark Findlay, 2013-05-13 Governing through Globalised Crime provides an analysis of the impact of globalisation of crime on the governance capacity of the international criminal justice system It explores how the perceived increased risk in global security has resulted in a reformulation of the relationship between crime and governance The book seeks to argue that values of freedom equality communitarian harmony and personal integrity which the prosecution of crimes against humanity are said to advance need not be sacrificed in a new world order obsessed with partial security and secularized risk This book aims to address a way forward for the governance capacity of international criminal justice arguing that international criminal justice provides a central tool for global governance In exploring the dependency of global governance on crime and control projections can be made about the changing face of international criminal justice Fundamental transformation is required to hold unjust global dominion to account The book s policy perspective challenges international criminal justice to return to the more critical position justice has exercised in the separation of powers constitutional legality For liberal democratic theory at least judicial authority and its institutions have ensured constitutional legality by requiring the legislature and the executive to operate accountably against a higher normative order This is not a predominant function of judges and courts in the international context despite their statutory invocation to this task Case studies of global crime and control reveal contexts in which the co opted governance of

institutional ICJ in particular has a politicized motivation which too often advances the authority and interests of one world order against the sometimes legitimate resistance of criminalized communities When the analysis moves to the consideration of victim community interests and from there to the appropriate global constituencies of ICJ the nature and limitations of ICJ supporting governance in the risk security model becomes apparent International and Comparative Criminal Justice Mark Findlay,2013-06-19 International criminal justice is in transition This book explores the growing internationalisation of criminal justice as a phenomenon of global governance It provides students with a critical understanding of the international institutions for regulating transnational crime the development of alternative justice processes across the globe and international and supra national co operation criminal justice policies and practices Key topics covered include The historical development of International Criminal Justice institutions and traditions International Restorative Justice Victim communities and collaborative justice The relationship between crime and war International Human Rights The War on Terror The globalisation of crime and control Developments in global governance communitarian justice and accountability This text will familiarize students with the literature and debates surrounding international criminal justice and enable them to critically appreciate their theoretical and policy context In doing so it encourages students to assess the strengths and weaknesses of different approaches to the study of global justice and the analysis of comparative policy convergence and research It will also help students to reflect on and communicate in an informed and critical way theoretical accounts and empirical studies within the field of international criminal justice This book will be essential reading for upper level undergraduates taking courses in criminal law international relations and governance and postgraduates engaged in international criminal justice international law regulation and governance and human rights *Justice of the Peace and Local Government Review* ,1873
