Social Judgment:

Social Judgment Muzafer Sherif, Carl Iver Hovland, 1961 **Social Judgment** J. Richard Eiser, 1990 In broad terms social judgement is concerned with how we make sense of our social world This book is about the relevance of processes such as attitudes impressions self appraisals and the interplay of emotion and rationality to social psychology Social Judgment and Intergroup Relations Donald Granberg, Gian Sarup, 2012-12-06 Social Judgment and Intergroup Relations Essays in Honor of Muzafer Sherif is a stimulating collection which paints a crisp and fascinating picture of social psychology during its decades of growth into a mature science With his important contributions in the study of social norms attitudes self concept group relations and other areas Muzafer Sherif was a key figure in the discipline Each essay in this book illustrates the lasting influence of Muzafer Sherif s seminal work in social psychology The Self in Social Judgment Mark D. Alicke, David A. Dunning, Joachim Krueger, 2013-05-13 The volume begins with a historical overview of the self in social judgment and outlines the major issues Subsequent chapters all written by leading experts in their respective areas identify and elaborate four major themes regarding the self in social judgment the role of the self as an information source for evaluating others or what has been called social projection the assumption of personal superiority as reflected in the pervasive tendency for people to view their characteristics more favorably than those of others the role of the self as a comparison standard from or toward which other people s behaviors and attributes are assimilated or contrasted the relative weight people place on the individual and collective selves in defining their attributes and comparing them to those of other people *The Construction of Social Judgments* Leonard L. Martin, Abraham Tesser, 2013-05-13 Researchers have been addressing social judgment from a cognitive perspective for more than 15 years Within recent years however it has become increasingly clear that many of the models and assumptions initially adopted are in need of revision The chapters in this volume point out where the original models and assumptions have fallen short and suggest directions for future research and theorizing The contributors address issues related to judgment memory affect attitudes and self perception In addition many present theoretical frameworks within which these different issues can be integrated As such this volume represents the transition from one era of social cognition research to the next **How Children Develop** Robert S. Siegler, Judy S. DeLoache, Nancy Eisenberg, 2006 In its first edition this highly anticipated textbook for the topically organized child development course provided a fresh non encyclopedic approach offering the latest straight from the research understanding of child development without overwhelming the student with inessential detail The new edition brings those hallmark features forward again providing a thoroughly contemporary streamlined introduction to the study of child development that emphasizes fundamental principles enduring themes and important recent studies Student friendly pedagogy a new chapter on gender and an enhanced media and supplements package further enrich this accessible engaging and informative text Social Judgment and Intergroup Relations Donald Granberg, 1992-04-16 Social Judgment and Intergroup Relations Essays

in Honor of Muzafer Sherif is a stimulating collection which paints a crisp and fascinating picture of social psychology during its decades of growth into a mature science With his important contributions in the study of social norms attitudes self concept group relations and other areas Muzafer Sherif was a key figure in the discipline Each essay in this book illustrates the lasting influence of Muzafer Sherif s seminal work in social psychology [Addressing Global Challenges - Exploring Socio-Cultural Dynamics and Sustainable Solutions in a Changing World](#) Parfait M. Doherty,1996 This special issue of Thinking and Reasoning is devoted to social judgement theory SJT which has its origins in Egon Brunswik s probabilistic functionalism The first paper discusses the history and theory of SJT and explores Hammond s distinction between coherence and correspondence criteria The next paper presents the major methodological approaches of SJT with a focus on the Lens Model Four applications follow including an exploration of the medical applications of SJT *Mixed-Mode Modelling: Mixing Methodologies For Organisational Intervention* M.G. Nicholls,S.A. Clarke,B. Lehaney,2013-12-01 The 1980s and 1990s have seen a growing interest in research and practice in the use of methodologies within problem contexts characterised by a primary focus on technology human issues or power During the last five to ten years this has given rise to challenges regarding the ability of a single methodology to address all such contexts and the consequent development of approaches which aim to mix methodologies within a single problem situation This has been particularly so where the situation has called for a mix of technological the so called hard and human centred so called soft methods The approach developed has been termed mixed mode modelling The area of mixed mode modelling is relatively new with the phrase being coined approximately four years ago by Brian Lehaney in a keynote paper published at the 1996 Annual Conference of the UK Operational Research Society Mixed mode modelling as suggested above is a new way of considering problem situations faced by organisations Traditional technological approaches used in management science have suffered criticisms relating to their adequacy in the past few decades and these hard approaches have been replaced by

soft methods which consider process more relevant than outcome However the sole use of human centred approaches to organisational problems has also proved to be inadequate Mixed mode modelling accepts the importance of both process and outcome and provides enabling mechanisms for hard and soft investigation to be undertaken
