## **Soft City:**

**Soft City** David Sim, 2019-08-20 Imagine waking up to the gentle noises of the city and moving through your day with complete confidence that you will get where you need to go quickly and efficiently Soft City is about ease and comfort where density has a human dimension adapting to our ever changing needs nurturing relationships and accommodating the pleasures of everyday life How do we move from the current reality in most cities separated uses and lengthy commutes in single occupancy vehicles that drain human environmental and community resources to support a soft city approach In Soft City David Sim partner and creative director at Gehl shows how this is possible presenting ideas and graphic examples from around the globe He draws from his vast design experience to make a case for a dense and diverse built environment at a human scale which he presents through a series of observations of older and newer places and a range of simple built phenomena some traditional and some totally new inventions Sim shows that increasing density is not enough The soft city must consider the organization and layout of the built environment for more fluid movement and comfort a diversity of building types and thoughtful design to ensure a sustainable urban environment and society Soft City begins with the big ideas of happiness and quality of life and then shows how they are tied to the way we live The heart of the book is highly visual and shows the building blocks for neighborhoods building types and their organization and orientation how we can get along as we get around a city and living with the weather As every citizen deals with the reality of a changing climate Soft City explores how the built environment can adapt and respond Soft City offers inspiration ideas and guidance for anyone interested in city building Sim shows how to make any city more efficient more livable and better connected to the environment

*Bibles and Baedekers* Michael Grimshaw, 2014-12-05 Contemporary tourism and travel have become a form of religion a new opiate of the masses However could Church and theology be religious forms of tourism and travel Bibles and Baedekers offers a theology of tourism and exile for a modern and postmodern world It examines the ways in which location identity and movement have made use of religious texts and metaphor and questions the relative absence of secular texts and ideas in theology The theology of the tourist and traveller is one of new experiences the acquisition of identity through movement Bibles and Baedekers uniquely applies this to the postmodern Christian embodying the fulfilment of Bonhoeffer's religionless Christianity dislocated from both a secular and religious world

*The Art of Urban Living* Christian Emden, Catherine Keen, David Midgley, 2006 This volume is based on papers given at the conference *Imagining the City* held in Cambridge in 2004 Together they examine the city as imagined space and as a matrix for imagined worlds using French German English Italian Russian and North American examples

*Youth Street Gangs* David C. Brotherton, 2015-04-24 Gangs have been heavily pathologized in the last several decades In comparison to the pioneering Chicago School's work on gangs in the 1920s we have moved away from a humanistic appraisal of and sensitivity toward the phenomenon and have allowed the gang to become a highly plastic folk devil outside of history

This pathologization of the gang has particularly negative consequences for democracy in an age of punishment cruelty and coercive social control This is the central thesis of David Brotherton s new and highly contentious book on street gangs Drawing on a wealth of highly acclaimed original research Brotherton explores the socially layered practices of street gangs including community movements cultural projects and sites of social resistance The book also critically reviews gang theory and the geographical trajectories of streets gangs from New York and Puerto Rico to Europe the Caribbean and South America as well as state sponsored reactions and the enabling role of orthodox criminology In opposition to the dominant gang discourses Brotherton proposes the development of a critical studies approach to gangs and concludes by making a plea for researchers to engage the gang reflexively paying attention to the contradictory agency of the gang and what gang members actually tell us The book is essential reading for academics and students involved in the study of juvenile delinquency youth studies deviance gang studies and cultural criminology **Soft City** Jonathan Raban,1974-01-01

*Globalization and Literature* Suman Gupta,2013-04-30 This book presents a state of the art overview of the relationship between globalization studies and literature and literary studies and the bearing that they have on each other It engages with the manner in which globalization is thematized in literary works examines the relationship between globalization theory and literary theory and discusses the impact of globalization processes on the production and reception of literary texts Suman Gupta argues that while literature has registered globalization processes in relevant ways there has been a missed articulation between globalization studies and literary studies Examples are given of some of the ways in which this slippage is now being addressed and may be taken forward taking up such themes as the manner in which anti globalization protests and world cities have figured in literary works the ways in which theories of postmodernism and postcolonialism familiar in literary studies have diverged from and converged with globalization studies and how industries to do with the circulation of literature are becoming globalized This book is intended for university level students and teachers researchers and other informed readers with an interest in the above issues and serves as both a survey of the field and an intervention within it

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
