## **Teachers Evaluating Teachers:**

*Teachers Evaluating Teachers* Myron Lieberman, As a writer on education reform Myron Lieberman has criticized America's two largest teacher organizations the National Education Association NEA and the American Federation of Teachers AFT for standing in the way of needed improvement in our system of public education One of the most telling criticisms of these organizations is that they have been too quick to defend teachers charged with incompetence In response to this charge from Lieberman and others the NEA and the AFT have championed a new unionism under which the teacher unions themselves and their local affiliates assume responsibility for ensuring teacher competence by instituting peer review systems

*A Guide to Impactful Teacher Evaluations* Joseph O. Rodgers, 2021-03-10 What if everything we thought we knew about effective teacher evaluations was wrong *A Guide to Impactful Teacher Evaluations* walks educators through an important shift in thinking about how to evaluate teachers from systems focused on individuals and results to solutions focused on collectives and processes Disregarding older ineffective models that rely on faulty assumptions this book embraces new approaches for measuring teacher competency that achieve valid assessment of effective teaching teacher professional growth and student learning Chapters explore teacher evaluation systems based on professional learning community principles confront the current system of teacher evaluation that has led to frustration criticism and disrespect provide strategies for delivering new skills and supporting teachers growth and include Tips and Talking Points for schools and districts Outlining best practice and sharing actionable tools grounded in collaboration and teamwork this book helps K 12 school leaders explore teacher evaluation that has a real and lasting impact on the profession and student learning

*Handbook on Teacher Evaluation with CD-ROM* James Stronge, Pamela Tucker, 2020-10-14 Easy to use authoritative and flexible the tools in this book and downloadable resources have been developed over the last 15 years and have been field tested in over 500 schools These tools will empower you to do your evaluations based on current thinking and best practices

**The New Handbook of Teacher Evaluation** Jason Millman, Linda Darling-Hammond, 1989-12-01 Now available in paper this version is the first comprehensive look at the process of selecting assessing and assisting teachers in nearly a decade Since the publication of the first Handbook the profession of teaching has witnessed dramatic change including a greater awareness of teacher accountability an increase in teacher testing and the development of teaching incentives At the same time the political social and organizational factors affecting the performance and evaluation of teachers have been subjects of intensive scrutiny Reflecting these changes the new Handbook contains 25 new chapters and explores current practices issues and controversies related to the evaluation of teachers at elementary and secondary levels

**Everyone at the Table** Ellen Behrstock-Sherratt, Allison Rizzolo, Sabrina W. Laine, Will Friedman, 2013-05-01 A proven method for working with teachers to design better evaluations There is no magic formula for successfully designing a teacher evaluation system However there is abundant evidence that suggests involving teachers in the process will reduce the likelihood of opposition

gridlock and reform failure Everyone at the Table provides materials to genuinely engage teachers in the evaluation process The book is a research based and field tested practical guide for school leaders With this resource educators will have the tools they need to develop meaningful teacher evaluations Offers a collaborative approach to designing teacher evaluations Includes a companion web based resource with video This research based program outlines a solid plan for improving teacher effectiveness through evaluation reform Evaluating Teaching James H. Stronge,1997-06-20 Design implement and monitor an effective teacher assessment and evaluation system for your school **Teacher Evaluation** Arthur E. Wise,1984 A new concern for the quality of education and of teachers is being translated into merit pay career ladder and master teacher policies that presuppose the existence of effective teacher evaluation systems School district administrators must understand the educational and organizational implications of the teacher evaluation system that they adopt because that system can define the nature of teaching and education in their schools In particular the system can either reinforce the idea of teaching as a profession or it can further deprofessionalize teaching making it less able to attract and retain talented teachers The present study focused on the actual operation of teacher evaluation procedures in school systems It examined not only the instruments and procedures but also the implementation process and the organizational contexts within which they operate This approach enabled the authors to observe whether and how teacher evaluation results are used by the organization It also indicated the broader organizational conditions needed to initiate and sustain effective teacher evaluation practices *Evaluating Teachers* Stephen Jackson,Casey Remer,2014 Until recently states focused on ensuring the presence of a highly qualified teacher in every classroom Under the 2001 reauthorization of the Elementary and Secondary Education Act ESEA known as No Child Left Behind NCLB this title described a teacher holding at least a bachelor s degree and the appropriate state license and demonstrating subject matter competency Research has shown that these input measures do little to explain differences in student performance Thus in recent years the conversation has shifted to a focus on outputs how effective a teacher is at improving student achievement Knowing how well or how poorly educators are performing is critical to drive improvement strategies for individual teachers schools districts and states and to inform accountability systems High quality teacher evaluation data can also be used to inform policies across the education system including measuring the effectiveness of teacher preparation programs informing performance based compensation ensuring students have equal access to highly effective teachers and identifying professional development needs The need for quality data on teacher performance is clear and the reform of teacher evaluation systems must be considered in the context of other activities designed to improve educator effectiveness This issue of re VISION part of a special series on teacher effectiveness examines the evolution of teacher evaluation systems and the most commonly used evaluation measures and offers considerations for policymakers who are examining teacher evaluation in their states A glossary of common student achievement measures is provided For Part 1 of this series see ED559385 for Part 3 see ED559381 for Part 4 see ED559388

and for Part 5 see ED559391      **How to Evaluate Teachers and Teaching** Lester S. Vander Werf,1958      **Evaluating Teaching** James H. Stronge,2005-11-02 This invaluable resource demonstrates how to foster the development of highly qualified teachers through designing and implementing a solid teacher evaluation system      **Evaluating Teachers** Brown Center on Education Policy. Task Group on Teacher Quality,Steven Glazerman,Susanna Loeb,Daniel D. Goldhaber,Stephen Raudenbush,Grover J. Whitehurst,Brookings Institution. Brown Center on Education Policy,2010 The evaluation of teachers based on the contribution they make to the learning of their students value added is an increasingly popular but controversial education reform policy We highlight and try to clarify four areas of confusion about value added The first is between value added information and the uses to which it can be put One can for example be in favor of an evaluation system that includes value added information without endorsing the release to the public of value added data on individual teachers The second is between the consequences for teachers vs those for students of classifying and misclassifying teachers as effective or ineffective the interests of students are not always perfectly congruent with those of teachers The third is between the reliability of value added measures of teacher performance and the standards for evaluations in other fields value added scores for individual teachers turn out to be about as reliable as performance assessments used elsewhere for high stakes decisions The fourth is between the reliability of teacher evaluation systems that include value added vs those that do not ignoring value added typically lowers the reliability of personnel decisions about teachers We conclude that value added data has an important role to play in teacher evaluation systems but that there is much to be learned about how best to use value added information in human resource decisions      **Teacher Evaluation** Daniel Linden Duke,Richard J. Stiggins,1986 This guide written for teachers and administrators wishing to introduce evaluation systems that promote continued teacher growth and enhance school effectiveness suggests that meaningful change requires a clear understanding of what is already in operation substantial skill development and adequate resources for the duration of the change cycle Rather than prescribing a single route to success the guide offers examples of different evaluation experiences describes possible evaluation courses and in separate chapters offers five keys to effective evaluation teachers evaluators performance data feedback and context A subsequent chapter examines the important attributes of these keys in more detail The guide concludes by offering two scenarios for success and a discussion on evaluating existing evaluation procedures improving the teacher evaluation environment and upgrading evaluation skills An appendix includes a teacher evaluation experience questionnaire and a questionnaire for evaluators self examination IW      [An Analysis of Programs for Evaluating Teachers for Tenure in Selected Michigan Public School Districts](#) Bennett Herschel Litherland,1968      **Linking Teacher Evaluation and Student Learning** Pamela D. Tucker,James H. Stronge,2005-04-15 In Linking Teacher Evaluation and Student Learning researchers Pamela D Tucker and James H Stronge show that including measures of student achievement in teacher evaluations can help schools focus their efforts to meet higher standards You ll see how four school systems have built such

measures into their evaluation programs in these distinct ways Documenting how desired learning outcomes translated into actual student learning Tracking progress on key content standards Setting annual quantifiable goals for students academic progress Analyzing changes in students achievement test scores The authors explore the strengths of each approach offer insights from teachers and administrators and describe practical ways to incorporate similar measures of student learning into your own evaluation program Detailed appendixes provide hands on tools and resources to help you adapt these approaches to your school s particular needs For any school that is working to meet higher standards linking teacher evaluation to measures of student learning is a powerful way to refocus professional development and improve student achievement

Teacher Evaluation to Enhance Professional Practice Charlotte Danielson,Thomas L. McGreal,2000-07-15

Teacher evaluation a term that brings fear anticipation stress anxiety or even boredom to the hearts of teachers and administrators everywhere How can we reinvent teacher evaluation so that it really makes a difference so that everyone in school benefits from it so that teachers and administrators learn from it so that students succeed as a result of it The bad news is that many schools and districts seem to be stuck in old ruts involving The Observation The Behavior Checklist and The Conference The good news is that many districts have paved the way for teacher evaluation to actually become professional development by using a three track evaluation system Track I for beginning teachers promotes growth and new learning through mentoring frequent observations and support systems Track II for tenured teachers that is most teachers in the system promotes professional learning experiences through self assessment goal setting data collection formative evaluations study groups action plans and evaluation in which teachers play an active role Track III for tenured teachers needing assistance focuses on remediating difficulties and recommending further action More good news Through concrete examples useful forms and assessment tools this book provides a clear roadmap to effective teacher evaluation systems that combine quality assurance with professional development for all teachers Note This product listing is for the Adobe Acrobat PDF version of the book

**Getting Teacher Evaluation Right** Linda Darling-Hammond,2013-05-26 EDUCATION

Educational Policy Reform General **Teacher Evaluation** Anthony J. Shinkfield,D.L. Stufflebeam,1996-02-29 Teacher Evaluation Guide to Professional Practice is organized around four dominant interrelated core issues professional standards a guide to applying the Joint Committee s Standards ten alternative models for the evaluation of teacher performance and an analysis of these selected models The book draws heavily on research and development conducted by the Federally funded national Center for Research on Educational Accountability and Teacher Evaluation CREATE The reader will come to grasp the essence of sound teacher evaluation and will be able to apply its principles facts ideas processes and procedures Finally the book invites and assists school professionals and other readers to examine the latest developments in teacher evaluation

**A Century's Growth in Teacher Evaluation in the United States** Clara Hamilton Peterson,1982 *Rethinking Teacher Evaluation in Chicago* Lauren Sartain,Sara Ray Stoelinga,Eric R. Brown,Stuart Luppescu,2011-11-18 Teacher

evaluation is arguably the hottest issue in education right now Because of Race to the Top many states and districts around the country are designing and implementing new teacher evaluation systems that for the first time ever evaluate teachers based on how much their students learn However there is limited research on how to build an evaluation system centered on classroom observations that can distinguish between effective and ineffective teaching This report from the University of Chicago Consortium on School Research focuses on Chicago but the lessons learned have significant applicability to districts across the country The report is one of the first to provide research based evidence showing that new teacher observation tools when accompanied by thoughtful evaluation systems and professional development can effectively measure teacher effectiveness and provide teachers with feedback on the factors that matter for improving student learning This is especially relevant for those districts that are implementing the Charlotte Danielson Framework for Teaching including Arkansas Delaware Florida Idaho Illinois New Jersey New York South Dakota Washington Los Angeles and Pittsburgh

*Teacher Self-Evaluation* Lya Kremer-Hayon, 1993-08-31 In response to the emerging need to develop teachers as professionals who evaluate their own work this book presents the foundations of self evaluation as well as self evaluation models and tools that are likely to help educational practitioners to evaluate their own teaching and thus raise the level of their professional functioning The book is intended to serve several groups student teachers whose socialization into the teaching profession should include the perception of self evaluation as an inherent part of teaching the student teachers supervisors who are expected to help in developing the knowledge and skills that are needed for purposes of self evaluation and teachers school principals and university instructors in departments of teacher education who are interested in teacher s growth and in the development of teaching as a profession
