*THE PROBLEM OF SOCIAL REALITY* MAURICIO ENRIQUE FAU, We have summarized here the essential of this book by the author THE PROBLEM OF SOCIAL REALITY CHAPTER 2 CONCEPT AND THEORY FORMATION IN THE SOCIAL SCIENCES There is a controversy between two positions that for more than two centuries has divided logicians methodologists and specialists in social sciences ONE OF THE POSITIONS HOLDS THAT THE ONLY SCIENTIFIC METHODS ARE THOSE OF THE NATURAL SCIENCES AND THAT ONLY THEM SHOULD BE APPLIED TO THE STUDY OF HUMAN AFFAIRS According to this position not having acted in this way is what has prevented the social sciences from developing systems of explanatory theories of precision comparable to that offered by the natural sciences THE RIVAL POSITION HOLDS THAT THERE IS A BASIC STRUCTURAL DIFFERENCE BETWEEN THE SOCIAL WORLD AND THAT OF NATURE This idea led to the conclusion that the methods of the social sciences differ from those used in the natural sciences It has been said that the social sciences are ideographic that is they are characterized by individualizing conceptualization and the search for singular propositions while the natural sciences are nomothetic and characterized by generalizing conceptualization and the search for general propositions

Collected Papers IV A. Schutz, 1996-02-29 Following the thematic divisions of the first three volumes of Alfred Schutz s *Collected Papers* into *The Problem of Social Reality Studies in Social Theory and Phenomenological Philosophy* this fourth volume contains drafts of unfinished writings drafts of published writings translations of essays previously published in German and some largely unpublished correspondence The drafts of published writings contain important material omitted

from the published versions and the unfinished writings offer important insights into Schutz's otherwise unpublished ideas about economic and political theory as well as the theory of law and the state. In addition, a large group contains Schutz's reflections on problems in phenomenological philosophy including music which both supplement and add new dimensions to his published thought. All together the writings in this volume cover Schutz's last 15 years in Europe as well as manuscripts written after his arrival in the USA in 1939.

Audience: Students and scholars of phenomenology, social theory, and the human sciences in general.

**Collected Papers** Sch, 1962      **The Phenomenological Approach to Social Reality** Alessandro Salice, Bernhard Schmid, 2016-02-24

This volume features fourteen essays that examine the works of key figures within the phenomenological movement in a clear and accessible way. It presents the fertile, groundbreaking, and unique aspects of phenomenological theorizing against the background of contemporary debate about social ontology and collective intentionality. The expert contributors explore the insights of such thinkers as Martin Heidegger, Edmund Husserl, Adolf Reinach, and Max Scheler. Readers will also learn about other sources that, although almost wholly neglected by historians of philosophy, testify to the vitality of the phenomenological tradition. In addition, the contributions highlight the systematic relevance of phenomenological research by pinpointing its position on social ontology and collective intentionality within the history of philosophy. By presenting phenomenological contributions in a scholarly yet accessible way, this volume introduces an interesting and important perspective into contemporary debate insofar as it bridges the gap between the analytical and the continental traditions in social philosophy. The volume provides readers with a deep understanding into such questions as: What does it mean to share experiences with others? What does it mean to share emotions with friends or to share intentions with partners in a joint endeavor? What are groups? What are institutional facts like money, universities, and cocktail parties? What are values and what role do values play in social reality?
