Dale, 2013-07 Life was set in place and going well I was slowly taking the lead in my father s business and it was growing beyond what he had planned or envisioned with the two of us buying and selling whatever things were needed or in demand Then the sale with my brothers in Jerusalem changed everything Though I did not

understand Jesus words they somehow touched my heart and I knew I would never be the same person I was before After going home and selling all that I owned and getting stuck with my best friend we journeyed to Jerusalem On the day we arrived Jesus was being put to death Words can t describe the sadness and loss I felt not for what I gave up but for what I had just lost Then a clear voice called to me Matthew and I answered him Yes Jesus He was waiting there for Justin and me to arrive so that He might invite us to do a mighty work for the kingdom of God We learned things that gave us vision into the spirit realm and taught us to see men as God sees us Our vision and our spirits were often opened to see in the spirit so all we could do was go forward there is no going back for us anymore For each of us one of our greatest joys was when we told our families about Jesus and they found His love too *The Patriarch and the Tsar ...* William Palmer,1873 **The**

Gladstone,2013-10-01 The year 2012 didn't mark the end of civilization as many had mistakenly predicted. Rather, it marked a turning point in human consciousness, a shift toward a more humanistic, less violent existence. But not if Arnold Wheeler can help it. Arnold is The Grand Light and Keeper of the Code of the Illuminati, which quietly and covertly control every major development on Earth. He is quite aware of the universal shift in consciousness predicted by the Mayans long ago. With this shift, humanity has the opportunity for the first time to reach its full potential. Except the Illuminati have other plans. William Gladstone, author of the bestselling *The Twelve*, takes readers on a roller coaster adventure that features George W. Bush, alternate earths, and the real meaning of the upcoming 26,000-year Mayan cycle. Part science fiction, part philosophical exploration, *The Power of Twelve* will keep readers turning the pages, discovering the very nature of existence. The problems keep mounting. The clock keeps ticking. And by the end, readers will be wondering what is real, what is not, and how they can prepare their own lives for a world that is so rapidly changing.
