### **Reviewing Composite Vulnerability and Resilience Indexes**

Valérie Angeon, 2016 By reasoning of composite indexes several empirical tests have been implemented to compare countries on a macroeconomic scale for their vulnerability but rarely for their resilience The results based on different computation methods do not systematically deal with sustainable development though sustainable development has surged as a field of major interest in the last few decades This paper develops a generic method to compute a composite index of vulnerability propensity and resilience capacity from a sustainable development perspective A worldwide application shows that vulnerability and resilience are both policy responsive There is then no determinism for a country to remain vulnerable or resilient For any country and for any situation from the worst to the ideal the state of vulnerability resilience may be an uncontrolled vulnerability a contained vulnerability a limited resilience or a built resilience Contrary to the conclusion generally shared by scholars in development economics Small Island Developing States are not specifically more prone to vulnerability than other countries

### **Social Policy and Social Dimensions on Vulnerability and Resilience in Europe**

Birgit Bütow, María Luisa Gómez Jiménez, 2015-05-04 There are two tendencies in present public discussions Social problems have their causes in the individual and are thus not a problem of socio economic inequality Consequently we find an increasing policy in Europe of selfactivation and self help as substitutes of social work On the other hand new types of social vulnerability and challenges for social work and social policy are detected which are discussed in the book in their European dimensions Beginning in the last century in Europe processes of social exclusion are discussed as common phenomena of the crisis in social welfare systems They have their origins in the radical changes in paid employment the weakening of family ties and the increasing incapability of the welfare state to promote social inclusion New types of social vulnerabilities are emerging containing chances as well as risks They are discussed in two ways On the one hand the implementation of indicator based management systems of social services is attempted which implies a range of chances and risks in ethical and professional self image On the other hand there are self help movements social networks and other social types of resilience which are often a complement or support to Social Work Yet there is a policy to substitute Social Work by a strategy of self activation Both developments are signs of the present and indicators of the future of Social Work They show the necessity of clarifying the social and political scopes and prospects of Social Work in societies at the crossroads of enhancing civility human development and social security or overburden the vulnerable who face new dimensions of

psychological ecological and economic distress This book is an attempt to bring together several European discussions concerning Social Work and social politics *You Are Your Best Thing* Tarana Burke, Brené Brown, 2022-01-25 NEW YORK TIMES BESTSELLER Tarana Burke and Dr Bren Brown bring together a dynamic group of Black writers organizers artists academics and cultural figures to discuss the topics the two have dedicated their lives to understanding and teaching vulnerability and shame resilience Contributions by Kiese Laymon Imani Perry Laverne Cox Jason Reynolds Austin Channing Brown and more NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE AND BOOKRIOT It started as a text between two friends Tarana Burke founder of the me too Movement texted researcher and writer Bren Brown to see if she was free to jump on a call Bren assumed that Tarana wanted to talk about wallpaper They had been trading home decorating inspiration boards in their last text conversation so Bren started scrolling to find her latest Pinterest pictures when the phone rang But it was immediately clear to Bren that the conversation wasn't going to be about wallpaper Tarana's hello was serious and she hesitated for a bit before saying Bren you know your work affected me so deeply but as a Black woman I've sometimes had to feel like I have to contort myself to fit into some of your words The core of it rings so true for me but the application has been harder Bren replied I'm so glad we're talking about this It makes sense to me Especially in terms of vulnerability How do you take the armor off in a country where you're not physically or emotionally safe Long pause That's why I'm calling said Tarana What do you think about working together on a book about the Black experience with vulnerability and shame resilience There was no hesitation Burke and Brown are the perfect pair to usher in this stark potent collection of essays on Black shame and healing Along with the anthology contributors they create a space to recognize and process the trauma of white supremacy a space to be vulnerable and affirm the fullness of Black love and Black life
