Literature and Legal Discourse Dieter Paul Polloczek, 1999-09-09 The intersection between law and literature is a developing area in literary studies Existing work has argued that literature provides an imaginary forum in which legal ideals and practices may be tested In *Literature and Legal Discourse* *Equity and Ethics from Sterne to Conrad* Dieter Polloczek develops this idea by comparing the notion of equity or ethics in fiction with its legal equivalent He shows how the novel with its increasing social scope and formal sophistication provided a means of transmitting questioning and refining society's traditions values and modes of self questioning Polloczek analyses the links between actual legal fictions like substituted judgements notions of equity literary tropes and the construction and representation of social bonds through sentiment philanthropy and marginalisation Polloczek's study is both theoretical and historical covering a period that extends from the eighteenth century to the modernist period and texts from Sterne Dickens Bentham and Conrad

Mobile Agents for Telecommunication Applications Ahmed Karmouch, Thomas Magedanz, Jaime Delgado, 2003-06-30 Research in the telecommunications field suggests that future network infrastructures will be composed of sensors wireless devices personal digital assistants networked appliances and numerous types of services This brings up key issues such as unfamiliar users and service interfaces discovering services that match user's needs finding and tracking people and resources establishing useful contacts and appropriate associations between resources and users and managing a large number of dynamic network entities all of which must be performed in an automated and proactive manner with a certain degree of autonomy and mobility These are the main characteristics

exhibited by mobile software agent behavior making the technology more suitable for future telecommunication applications and services. It also reveals the tremendous potential for the mobile agent paradigm. The potential complexity of mobile agent operation requires that mechanisms exist on several levels to coordinate its activities. For this purpose, research and development on various forms of mobile agents continues to grow in a staggering fashion. Age-based applications and services such as network management, e-commerce, information gathering on the Internet, mobile communications, active networking, and most recently ad hoc communications are becoming increasingly popular and continue to contribute to the development and to the success of mobile agent technology. In addition, it is well established that mobile agents are an ideal sister technology for mobile ad hoc networks where users, applications, services, devices, and networks are mobile and dynamically configurable.

J. Boynton, 2021-02-01

Emerging at a moment of escalating colonial conflict between England and Ireland, the figure of the Irish Celt enjoyed a long and varied career in both English and Irish literature from the late Victorian era to World War II. While this figure assumes many forms and functions, T. J. Boynton argues that he is consistently cast as inherently resistant to capitalism. Beginning with an innovative reassessment of Matthew Arnold's *The Study of Celtic Literature* from which the book also takes its title, *Against the Despotism of Fact* offers new readings of major works by writers such as Kipling, Conrad, Lawrence, Yeats, Joyce, and Beckett. In their writing, Boynton argues, the Irish Celt served as a transnational vehicle of modernist experimentation geared toward interrogating the imperial, social, and pop-cultural dimensions of capitalist modernity. Making a significant contribution to Irish studies, modernist studies, and postcolonial studies, *Against the Despotism of Fact* draws attention to not only the prevalence but also the critical potential of this fraught figure.

Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
