Seel,Robert D. Tennyson,Norbert M. Seel,2014-03-18 Instructional design theory and practice has evolved over the past 30
years from an initial narrow focus on programmed instruction to a multidimensional field of study integrating psychology
technology evaluation measurement and management The growth of instructional design ID has occurred because of direct
needs problems and goals from society Its application in planning instruction first developed in the United States with the
Department of Defense during World War II with the purpose of meeting immediate concerns for effective training of larger
numbers of military personnel From the beginning ID has rapidly expanded into applications in industrial and executive
training vocational training classroom learning and professional education Although ID has its roots in the U S applications
