Stephens first sets out a theoretical framework for reading and viewing minimal writing and then offers close readings of works of minimal writing by Saroyan Grenier Norman Pritchard Natalie Czech and others He reverse engineers recent works by Jen Bervin Craig Dworkin and Christian B k that draw on molecular biology and explores print on demand books by Holly Melgard code poetry by Nick Montfort Twitter based work by Allison Parrish and the use of Instagram by Hans Ulrich Obrist and Saroyan Text it seems is becoming ever more prevalent in visual art meanwhile poems are getting shorter When reading has become scanning a screen and writing tapping out a text absence of clutter invites us to reflect on how we read see and pay attention
