A New Approach to Reading Videogames as Story Thomas Rowland,2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames toy games storybook games and ludonarratives This methodology pulls from phenomenological

and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative This book explores the idea of storyplaying in connection with new ideas on intramersive movement game mechanics and sacred play to develop a typology of videogames that will enable critics educators and theorists to situate videogames within a broad continuum of literary history Building on this foundation this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism the emerging art world of game mediated photography the various economies constructed around videogames the potential of games to serve as third places and some suggestions for videogames in the classroom These ideas are contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces with dedicated and important meditation which given today's decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises **Handbook of the**

Metaverse Pan Hui, Peng Yuan Zhou, Lik-Hang Lee, Tristan Braud, 2026-01-08 The metaverse is sweeping the globe thanks to its fundamentally innovative concepts of physical virtual blended reality and years of industrial efforts on relevant hardware development It is yet unclear what the metaverse is what technologies it relies on and what concern the society should care about since it is such a huge ecosystem with nearly unlimited possibilities The book aims to provide a comprehensive study on the metaverse including its development and ecosystem and detailed descriptions of multiple key technologies with their challenges and state of the art solutions finally conclude with several important societal issues the metaverse may raise including concerns and suggestions The book targets at providing understandable introductions to varied aspects of the metaverse that may appear new to common audiences and deep insights into a number of key directions for related professionals The purpose of the book is to help readers better understand the concept and current status of metaverse while inspiring relevant readers or institutes to spot interesting and challenging topics to follow **Daqinix's Group Recount:**
