Reading Programs for Young Adults Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

Laurie's Technical series of reading books James Stuart Laurie,1870

Theme Immersion Maryann Murphy Manning,Gary L. Manning,Roberta Long,1994 The authors of this book define theme immersion as an in depth study of a topic an issue or a question Theme immersion is very different from the traditional unit or theme approach The authors clearly point out these differences with respect to how a topic is selected what is studied and the roles of the teacher and the students By inviting the reader into the classrooms of theme immersion teachers the authors show dramatically that the teacher does not impose or control ideas but is an active member of a community of learners Personable and practical Theme Immersion will be invaluable for classroom teachers who want to teach with such excitement and relevance that their students become lifelong learners Teachers wanting to implement a theme study approach in their classrooms will find all the direction they need in Theme Immersion

New Space Frontiers Piers Bizony,2014-10-15 Take a journey into the New Space Frontier It is easy to imagine that the space shuttle s retirement has edged the Space Age toward closure at least in terms of human flight beyond the bounds of earth In fact there are more people carrying ships being constructed now than at any time since Yuri Gagarin became the first man in space half a century ago Some are already servicing the International Space Station which incidentally has ensured a permanent human presence in space for the last two decades and is set to continue and expand for decades yet to come What s more NASA is no longer the only big player in the space game

Commercial non governmental space exploration is becoming a reality rather than just a pipe dream What orbital adventures await us in the next five decades Will humans ever again head into deep space as the Apollo astronauts once did NASA s new hardware is aimed toward asteroid missions and ultimately Mars but there is a significant chance that a government funded space agency will not be the only or even the first organization to send humans across the solar system Get ready to experience the excitement of adventure with New Space Frontier Through gorgeous photography and engaging writing noted space and science author Piers Bizony speculates beyond just today s hardware and explores what might be possible for the next generation
