Smart Contracting For Local Government Services Processes And Experience:

Smart Contracting for Local Government Services Kevin Lavery, 1999-03-30 Privatization of local government is making headlines throughout the world Scottsdale Arizona contracts for fire protection Baltimore to run nine city schools and Chicago and Philadelphia for a range of services from janitors to recreational facilities The United Kingdom New Zealand and Australia have arguably gone further than the United States But much of the debate on contracting has been high on politics philosophy and emotion with little attention to practical issues of how to do contracting well The book shifts the debate away from the politics and rhetoric to the practicalities and realities of contracting The book is concerned with four issues the role of contracting in government the appropriateness of different contracting strategies the process of contracting and who does the contracting Drawing on examples in the United States and the United Kingdom the author considers the historical and cultural context of contracting where contracting works and where it doesn't the features of smart contracting and the conditions that are conducive to smart contracting The book provides an invaluable guide to those concerned with the practicalities of contracting

Alternative Service Delivery: Readiness Check Gerald T. Gabris, Heidi O. Koenig, Kurt Thurmaier, Craig S. Maher, Kimberly L. Nelson, Katherine A. Piker, Alicia Schatteman, Dawn S. Peters, Craig Rapp, 2014-04-15 Alternative Service Delivery Readiness Check synthesizes academic and practitioner knowledge about alternative service delivery ASD systems This handbook offers information and insights that local governments can use to provide public services more effectively and efficiently It serves as a primer about alternative service delivery intended to guide investigation of new approaches to service delivery It derives from multiple conversations with local government practitioners in Illinois who were frustrated by a lack of guidance on how to think about alternative service delivery methods for public services and in what circumstances different alternatives were more or less successful This handbook is written for both appointed managers and elected officials who are looking for innovative ways to consider service delivery and want to answer the basic question Can we be doing this better Why does your local government want to consider providing public services in new alternative ways As the cases in this handbook demonstrate jurisdictions that successfully develop and implement an alternative service delivery method are driven by a desire to improve service effectiveness Local governments that move from tactical to strategic thinking about service delivery are the ones more likely to improve services using different forms of alternative service delivery The kinds of issues and types of questions examined in this handbook range from how to best handle such demand driven services as allocation of police and fire resources to how to share expensive equipment that your jurisdiction needs only some of the time The stories solutions and evidence are intended to help local government officials understand the differences between delivery alternatives and the prerequisites for developing and implementing each option

Rethinking Governance Stephen Bell, Andrew Hindmoor, 2009-07-13 Several problems plague contemporary thinking about governance From the multiple definitions that are often vague and confusing to the assumption that governance strategies networks and markets represent attempts by weakening states to maintain control Rethinking Governance questions this view and seeks to clarify how we understand

governance Arguing that it is best understood as the strategies used by governments to help govern the authors counter the view that governments have been decentred They show that far from receding states are in fact enhancing their capacity to govern by developing closer ties with non government sectors Identifying five modes of government governance through hierarchy persuasion markets and contracts community engagement and network associations Stephen Bell and Andrew Hindmoor use practical examples to explore the strengths and limitations of each In so doing they demonstrate how modern states are using a mixture of governance modes to address specific policy problems This book demonstrates why the argument that states are being hollowed out is overblown Debating Public Administration Robert F. Durant, Jennifer R.S. Durant, 2012-10-26 Dialog between practitioners and academics has increasingly become the exception rather than the rule in contemporary public administration circles Bridging the gap between theory and practice Debating Public Administration Management Challenges Choices and Opportunities tackles some of the major management challenges choices and opportunities of the twenty first century facing public managers across various subfields of public administration Informed by contemporary pressures on public managers to reconceptualize purpose redefine administrative rationality recapitalize human assets reengage resources and revitalize democratic constitutionalism the book offers students practitioners and researchers an opportunity to take stock and ponder the future of practice and research in public administration Organized by three sets of major management challenges facing the field Rethinking Administrative Rationality in a Democratic Republic Recapitalizing Organizational Capacity and Reconceptualizing Institutions for New Policy Challenges the book takes an uncommon approach to the study of these topics In it leading practitioners and academics comment on condensed versions of articles appearing in the Theory to Practice feature of Public Administration Review PAR from 2006 through 2011 The authors and commentators focus on some of the best current research draw lessons from that literature for practice and identify gaps in research that need to be addressed They expertly draw out themes issues problems and prospects providing bulleted lessons and practical takeaways This makes the book a unique one stop resource for cross disciplinary cross sectoral and cross professional exchanges on contemporary challenges **Constitutional Coup** Jon D. Michaels, 2017-10-23 Americans hate bureaucracy though they love the services it provides and demand that government run like a business Hence today s privatization revolution Jon Michaels shows how the fusion of politics and profits commercializes government and consolidates state power in ways the Constitution s framers endeavored to disaggregate Instability in Local Government Contracting and the Role of Monitoring Amir Hefetz, 2002 Beyond the Bid Sherri Greenberg, 2004 **Privatizing Toll Roads** Wendell Lawther, 2000-06-30 Providing an in depth case study of a highly successful public private partnership this book offers valuable insights for privatizing an existing public service A mix of theory and empirical analysis the study initially creates and explains a model for the Privatization Transfer Process which serves as a guide for contracting out services Drawing on the experience of the Orlando Orange County Expressway Authority when it privatized

toll road operations the book traces the steps taken through the initial decision to privatize the creation of the Request for Proposal and the review and rating of three bidder responses It then follows the awarding of the bid to the Florida Toll Services and the transition from public to private control The book also considers technical and pricing concerns as well as issues pertaining to contract management In conclusion it evaluates the entire effort By offering a detailed analysis of a very successful privatization experience the book provides a useful tool for those concerned with privatization issues
