Gehring, 2017-02-28 In *The Oxbridge Evangelist Motivations Practices and Legacy of C S Lewis* Michael Gehring examines the evangelistic practices of one of the most significant lay evangelists of the twentieth century In the early 1930s not many who knew Lewis would have guessed that he would become such a significant evangelist He has left an evangelistic legacy that has influenced millions across the world Yet Lewis scholarship has not given sufficient attention to this crucial aspect of his legacy This work examines Lewis's loss and recovery of faith and it shows how his experience heightened his own awareness of the loss of the Christian faith in England Because of his ability to identify with others Lewis engaged in the work of evangelism with uncanny skill This work required singular courage on his part it cost him dearly professionally and in his relationships Gehring critically explores Lewis's motivations practices and legacy of evangelism In doing so he provides penetrating insight for those interested in the theory and practice of evangelism in a culture that too readily leaves it to the crazies of the Christian tradition or relegates it to the margins of church life      Applying Design Thinking to the Measurement of Experiential Learning Peck, Adam, DeSawal, Danielle, 2021-06-25 In the field of student affairs many are rethinking the value of a wide variety of traditional aspects associated with the student experience Recent commentary has questioned whether students should attend college that has an all inclusive tuition focused primarily upon academic and support services Given the need for changes the COVID 19 pandemic has created it is imperative to question whether this kind of academic package is ideal for the future of higher education As issues surrounding the traditional aspects of the student experience continue to develop research has begun to focus on how student learning and awareness can be improved specifically within the principles of design thinking *Applying Design Thinking to the Measurement of Experiential Learning* is a forward thinking and innovative look at assessment and design conditions that promote student learning It proposes new models for education conditions for student learning and student learning assessment using design thinking and experiential learning These topics include adjustments to curriculum integrated learning environments student success and student affairs campus wide design thinking and testing assessments This book is valuable for senior leaders in the field of student affairs student affairs assessment professionals and faculty teaching in higher education programs practitioners researchers academicians and students interested in how the principles of design thinking can be applied to higher education      **Missionalia**, 1992 Contains abstracts of missiological contributions book reviews and articles      **Religious and Theological Abstracts**, 1991
