Cummings Neville,1993-07-01 Neville returns eternity to the center of consideration by analyzing the obsessive culture that attempts to get along denying it and he analyzes the nature of time s flow itself the nature of divine eternity and the subtle problems of personal immortality He argues that time and eternity constitute one topic and that therefore time itself is beyond understanding beyond personal grasp and beyond civilized orientation without a proper comprehension of eternity

St. Paul and Paganism Thomas Wilkie Wilson,1927 *Light* ,1912 **The Madness of the Saints** June McDaniel,1989-07-15 Although ecstasy has been explored in several Indian contexts surprisingly little scholarship has been devoted to its central role in Bengali devotion In *The Madness of the Saints* June McDaniel undertakes the first comprehensive study of religious ecstasy in Bengal examining the texts that describe it the people who experience it and the traditions that support it *Now Concerning Spiritual Things* Fitzroy John Willis,2019-11-13 In a pluralistic world of competing truth claims how can one discern what is truly representative of God How can we live and communicate what is authentically spiritual How do we bridge the religious impasse between believers and a post Christendom and pluralistic context where individuals may consider themselves to be spiritual yet are offended by the person of Jesus Can relativism be an effective means of evaluating truth from falsehood What role should race gender and socioeconomic background play in society and the church These are just a few of the questions this study addresses in presenting a more balanced dialogical and biblical criterion for authentic spirituality The insights on how to discern live and communicate what is authentically spiritual are significant for interreligious and ecumenical dialogue across denominations These insights contribute a way to more effectively communicate divine truths to all for it is conversant with various sources of knowledge about God and is accountable to feedback from these sources of truth For example tacit knowledge such as that derived from faith and spiritual gifts as well as rational or philosophical claims to truth along with Western Eastern and Southern modes of thinking are all incorporated *The Political Theology of Paul Tillich* Rachel Sophia Baard,2024-01-16 *The Political Theology of Paul Tillich* explores the political theology of one of the foremost thinkers of the 20th century Paul Tillich whose life and scholarship were decisively shaped by his experiences during World War I his resistance to the rising scourge of Nazism in

Germany and his subsequent immigration to the United States Tillich's discerning analysis of fascism grounded in his socialist commitments and his continuing efforts to write theology in correlation with culture make his voice a crucial one for contemporary political theology The contributors to this volume represent different generations social and cultural locations and nationalities Together they explore Tillich's early work on religious socialism and its lingering presence in his later systematic theology bring him into dialogue with liberation theologies apply his thought to contemporary political concerns and show the significance of his method of correlation for theological scholarship that engages culture thereby presenting a case for the continued relevance of Tillich for political theology
