Suspended Music Lothar von Falkenhausen,1994-03-16 The Chinese made the world s first bronze chime bells which they used to perform ritual music particularly during the Shang and Zhou dynasties ca 1700 221 B C

Lothar von Falkenhausen s rich and detailed study reconstructs how the music of these bells the only Bronze Age instruments that can still be played may have sounded and how it was conceptualized in theoretical terms His analysis and discussion of the ritual political and technical aspects of this music provide a unique window into ancient Chinese culture

This is the first interdisciplinary perspective on recent archaeological finds that have transformed our understanding of ancient Chinese music Of great significance to the understanding of Chinese culture in its crucial formative stage it provides a fresh point of departure for exploring later Asian musical history and offers great possibilities for comparisons with music worldwide
