Pilgrims Darius Liutikas, 2020-11-20 Values-rich journeys can be described as pilgrimage, spiritual travel, personal heritage, tourism, holistic tourism, and valuistic journeys. There are many motivations for undertaking these journeys, the most important being personal values, life experience, personal and social identity, lifestyle, social and cultural influence. This book presents contributions that address pilgrim motivation, identity, and values as they are shaped by the broader sociological, psychological, cultural, and environmental perspectives. The focus of the book is the travellers themselves and their inner world through the lens of their pilgrimage. The research presented focuses on the typology of pilgrim journeys as ways in which identity and values are presented to a post-modern consumer society, providing interesting and challenging perspectives on the identity of pilgrims in the 21st century.
