Economic Stories For Undergrads Annavajhula J. C. Bose,2022-05-10 Economics is

the strangest and most dubious as also frustrating animal of social sciences and humanities The debate on what it is and what its strengths and weaknesses are in understanding and changing the economy and society for the better is never ending This book cuts through this noise for econ undergrads with social concerns It is crafted to be stuffed with peripatetic hops skips and intellectual and emotional jumps about the nature and character of the brain circuits of economics in terms of its methodological political sociological anthropological historical feminist ethical ecological spiritual literary technical corporate and other underpinnings Diverse stories are told as alerts or nudges for the undergrads who as aspirant youth have in general hyperbolic discounting attitude towards social change The mind and heart of the undergrad reading this book will hopefully be ignited so as to endeavour to find out the purpose of economic education and how economics should be learnt in order to rectify the failures of our current socio economic system The seriously academic undergrad may also be inspired to pursue the long range objective of doing integrated studies and research for maximised understanding and holistic policy making which is of course easier to say than do

Place Based Approaches to Sustainability Volume II Mara Del Baldo, Maria-Gabriella Baldarelli, Elisabetta

Righini,2024-02-22 Without respecting and nurturing place we cannot achieve a state of ecological sustainability Place based organizations are not run on a purely materialistic basis The non materialistic features of a place its aesthetics cultural heritage community feelings transcendence should be integrated into sustainability management This far reaching two volume work breaks with the economic logic of efficiency and profit maximization and suggests that organizations should inform their sustainability by encompassing feelings of identity with and attachment to place According to this vision the editors have compiled scholarly contributions aimed to support the ecological transformation of humankind by exploring both theoretical and practical models that integrate the sense of the place ethics and spirituality in new ways of organizing of economic and social life This second volume takes the theoretical direction established in the first model and puts it into practice with cases from business and society It will be of interest to scholars practitioners and students of sustainability business ethics and spirituality

How Quantum Activism Can Save Civilization Amit Goswami,2010-03-01 Goswami

shows that the quantum worldview is not dreamy philosophy or esoteric physics but has profound social consequences of planetary significance Larry Dossey MD New York Times bestselling author Beginning with Taking the Quantum Leap by

Fred Alan Wolf there have been a number of books that have created new paradigms for integrating science and spirituality. These books have been long on theory and short on application. This work represents something completely different for this genre. In his previous book *God is Not Dead*, Goswami proved that not only are science and religion compatible but that quantum physics proves the existence of God. In this new book, Goswami moves beyond theory into the realm of action. He asserts that quantum thinking is striking the death blow to scientific materialism that quantum thinking allows us to break from past bad habits and brings us into free will and possibilities. Beginning with the question *God is here so what are you going to do about it*, Goswami calls for a plan of action that involves applying quantum thinking to a variety of societal issues. He issues a call for a spiritual economics that is concerned with our well being rather than only our material needs, democracy that uses power to serve instead of dominating others, education that liberates rather than shackles and new healthy practices that restore wholeness. Dr. Amit Goswami, as usual, has the most brilliant insights into how consciousness conceives, constructs, and becomes biology. Deepak Chopra, *Read it seriously and take heart all is not lost and we can change reality*. Fred Alan Wolf, author of *Taking the Quantum Leap*.

Spirituality and Ethics in Management Laszlo Zsolnai, 2011-04-20. The book, which was originally published by Kluwer in 2004, is a collection of scholarly papers focusing on the role of spirituality and ethics in renewing the contemporary management praxis. The basic argument is that a more inclusive, holistic, and peaceful approach to management is needed if business and political leaders are to uplift the environmentally degrading and socially disintegrating world of our age. The book uses diverse value perspectives: Hindu, Catholic, Buddhist, and Humanist, and a variety of disciplines: philosophy, ethics, management studies, psychology, and organizational sciences to extend traditional reflections on corporate purpose and focuses on a self-referential organizational existential search for meaning, identity, and success.

Revelations in Business Dr. K. Shelette Stewart, 2017-04-20. Business people don't plan to fail; they simply fail to follow God's plan. There are many books that teach us how to succeed in business. And there are many books that teach us how to apply the Word of God to our lives. What if there was a book that combined the two? *Revelations in Business* is that book. In *Revelations in Business*, Dr. Stewart combines her core Christian beliefs with her extensive academic and professional experience with Fortune 500 companies, including the Coca-Cola Company and BellSouth Corporation, AT&T, to guide readers through an innovative eight-step divine business planning approach that will position you to maximize your personal fulfillment and professional success in any industry. *Revelations in Business* is without question *The Purpose-Driven Life* for business leaders. Regardless of whether you are a seasoned leader or just beginning your career, this book is for anyone who desires to achieve success and significance. Arranged in order of a conventional business plan, *Revelations in Business* offers real-life examples from business leaders, spiritual principles, practical tools, and pragmatic recommendations that you can begin applying immediately. *Revelations in Business* is a powerful tool for progressive leaders who desire to bring insightful, empowering content to their teams to increase employee

Economics as the Basis of Living Ethics John Gormley Murdoch,1913 The New Englander ,1880 **Single Tax Review** ,1922 **Lessons in Spiritual Economics from the Bhagavad-Gita** Dhanesvara Das,2010-04-21 Spiritual Economics is a cross disciplinary study combining psychology economics and the spiritual science of the Vedas to explain why there is vulture capitalism cut throat competition unending economic hardship exploitation inequity and struggle in this world Spiritual Economics explains why present economic methods can do nothing to solve these problems reveals the actual source of our economic problems and explains the only factual solution that can create an economy that serves everyone Spiritual Economics also explains the origin and solution of our ecological problems There is a link between economic activity and human consciousness Economics is not a physical science like electromagnetism that works according to natural laws It is a set of ideas entirely created by human beings The most important side of the economic equation therefore is the human side but this side is totally neglected in all discussions of economics Since economics is a man made creation if we want to understand the economic problem and its solution we must understand how and why human beings act in this world That will give us the insight needed to properly adjust all of the parameters of the economic calculus to get the desired result Only Spiritual Economics explains the whys and wherefores of human behavior in relationship to their economic activity **New Englander and Yale Review** Edward Royall Tyler,William Lathrop Kingsley,George Park Fisher,Timothy Dwight,1880
