Heritage Language Education in Greece and Cyprus Nikos Gogonas, 2023-10-09 Amid the growing trend of preserving ethnic languages within diverse ethnolinguistic communities in Greece and Cyprus our understanding of heritage language education in these countries remains limited The chapters in this collection undertake a thoughtful exploration of language education in the world's two majority Greek speaking contexts The volume brings together empirical studies that exhibit the array of heritage language education options available in Greece and Cyprus today including community complementary schools operating on weekends or after regular school hours providing language and culture classes in a range of languages e.g. Albanian Czech Armenian Russian day schools such as Italian and Hebrew schools and family language schools developed within the UNICEF framework Collectively these chapters establish a novel evidence base describing the diversity of the heritage language education landscape which could act as a catalyst for further research and potentially drive change in both policy and practice Importantly the volume renders heritage language education initiatives in Greece and Cyprus visible mainly to scholars but potentially also to practitioners policymakers and other stakeholders in this evolving social educational and linguistic domain
