Drawing on research theory and practice, this book presents ways in which practitioners working in partnership with parents can give children a successful start to school. Written in an accessible style, the book helps early years practitioners plan transition programs for new children and offers ideas for developing their professional practice when working with families. Starting school at the age of four or five is recognized as a major adjustment in a child's life that can determine his or her future success in education. This book highlights the factors that influence children's early adjustment, including their social and emotional wellbeing, so that schools can learn the best way to offer support. Practitioners, managers, and those studying on early childhood courses will gain an understanding of the complexity and diversity of transition and will learn how they can make this a stress-free time for the children, families, and professionals involved. **Teachers' Manual** John Spencer Clark, 1894. **Resources in Education**, 1991. **Teachers' Manual to Accompany Reader and Guide for New Americans** Alfred Watkins Castle, 1924. **Teachers in Transition** Mary Z.
