This unique textbook features substantial attention to theory, history, international and regional institutions, and the role of transnational actors in the protection and promotion of human rights. Its purpose is to explore the difficult and contentious politics of human rights and how those political dimensions have been addressed at the national, regional, and especially international levels. The fifth edition is substantially updated, rewritten, and revised throughout, including updates on multilateral institutions, especially the UN's Universal Periodic Review process and the Human Rights Council's Special Procedures mechanisms, regional systems, human rights in foreign policy, including a specific chapter on U.S. foreign policy, humanitarian intervention, and the responsibility to protect, and anti-terrorism and human rights. The book also includes a new chapter on the unity, indivisibility, and interdependence of human rights. Chapters include discussion questions, case studies for in-depth examination of topics, including new case studies on the UN Special Procedures, Myanmar, and Israeli settlements in West Bank, Palestine, and ten problems, including new entries on the war in Syria and hierarchies between human rights, tailored to promote classroom discussion. **Human Rights in Times of Conflict and Terrorism** Louise Doswald-Beck, 2011-09-22 This book is a guide to international human rights law as it applies to situations of armed conflict, to counter-terrorism measures, and to any other situation of actual or potential violence requiring security measures. These situations can lead to some of the most fundamental human rights being put in danger of being violated. These include the right to life, the prohibition of torture and inhuman or degrading treatment, enforced disappearance, all the rights relating to detention and due process of law, and the freedoms most commonly affected by armed conflict and counter-terrorism. The book begins with a presentation on the application of human rights to such situations and an explanation of the regime of limitations and derogations. After an overall description of the relationship between human rights law on the one hand and international humanitarian law and international counter-terrorism measures on the other, the book concentrates on the rights themselves. Each chapter presents the relevant treaty provisions and explains the interpretation of the rights by reference to the case law and general comments of these treaty bodies. The book concludes with a section on how international human rights law protects certain vulnerable and disadvantaged populations in such situations. **International Human Rights Law** Olivier De Schutter, 2019-09-12 Fully updated to cover topics such as climate change, trade, and business activities, while retaining the original style and structure. *The International Law of Human Rights* Adam McBeth, Justine Nolan, Simon Rice, 2017 *The International Law of Human Rights* provides a comprehensive overview of the concepts and theories of human rights, the institutions, instruments, and implementation structures for protecting human rights, and the contemporary challenges of human rights law. **The**
