Caligula Et Camus Sophie Bastien, 2006 Alors que le théâtre d'Albert Camus reçoit de plus en plus de considération de la part des universitaires cet ouvrage se consacre la meilleure pièce camusienne Caligula Il en propose une analyse structurée pour en faire ressortir toute la matérialité et définit les rapports complexes que celle-ci entretient avec la folie et le politique il cerne ainsi dans leur interaction les motifs qui sont au cœur de l'œuvre De plus il établit des liens aussi riches que variés avec des textes historiographiques et des œuvres phares de la littérature occidentale qui précèdent le personnage si puissant qu'est Caligula En somme il situe la pièce sur le triple plan d'une tradition philosophique et littéraire qui remonte à l'Antiquité du renouveau théâtral qui marque le milieu du XXe siècle et de la production de Camus dans son ensemble Il interrogera étudiants et professeurs qui se penchent sur la littérature française du XXe siècle aussi bien que sur d'autres littératures puisque par le biais camusien il traite de la tragédie grecque de Shakespeare de Melville de Pirandello Il s'adresse plus spécialement ceux qui étudient le théâtre que ce soit dans une perspective historique thématique ou esthétique

A Guide to Early Jewish Texts and Traditions in Christian Transmission Alexander Kulik, Lorenzo DiTommaso, 2019 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions but its main sources have been preserved to a great degree through Christian transmission This Guide is devoted to problems of preservation reception and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era It approaches this corpus not as an artificial collection of reconstructed texts a body of hypothetical originals but rather from the perspective of the preserved materials examined in their religious social and political contexts It also considers the other non-Christian channels of the survival of early Jewish materials including Rabbinic Gnostic Manichaean and Islamic This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and traditions among diverse later cultures It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity
