Violence, Scripture, and Textual Practice in Early Judaism and Christianity Ra'anan S. Boustan, Alex P. Jassen, Calvin J. Roetzel, 2009-10-26 This volume analyzes the various and overlapping discourses of religious violence that emerged within Jewish and Christian culture in the Roman world Toward this end the nine papers collected here address both the presence of violence within the authoritative scriptural traditions of early Judaism and Christianity and the redeployment of these older traditions to represent legitimate and indeed sacralize violence Individual papers focus on the specific social and historical contexts from which these texts emerged while the volume as a whole highlights the patterns of textual practice shared across social and religious boundaries Throughout the dynamic interplay between text tradition and violence in early Jewish and Christian culture is located within the broad landscape of Roman imperial society      Shakespeare and the Problem of Adaptation Margaret Jane Kidnie, 2009 Kidnie s study presents original sophisticated and profoundly intelligent answers to important questions Lukas Erne University of Geneva This is a fine and productive book one that will surely draw significant attention and commentary well beyond the precincts of Shakespeare studies W B Worthen Columbia University Shakespeare s plays continue to be circulated on a massive scale in a variety of guises as editions performances and adaptations and it is

by means of such mediation that we come to know his drama Shakespeare and the Problem of Adaptation addresses fundamental questions about this process of mediation making use of the fraught category of adaptation to explore how we currently understand the Shakespearean work To adapt implies there exists something to alter but what constitutes the category of the play and how does it relate to adaptation How do play and adaptation relate to drama's twin media text and performance What impact might answers to these questions have on current editorial performance and adaptation studies Margaret Jane Kidnie argues that play and adaptation are provisional categories mutually dependent processes that evolve over time in accordance with the needs of users This theoretical argument about the identity of works and the nature of text and performance is pursued in relation to diverse examples including theatrical productions by the Royal Shakespeare Company the BBC's Shakespeare Re Told the Reduced Shakespeare Company and recent print editions of the complete works These new readings build up a persuasive picture of the cultural and intellectual processes that determine how the authentically Shakespearean is distinguished from the fraudulent and adaptive Adaptation thus emerges as the conceptually necessary but culturally problematic category that results from partial or occasional failures to recognize a shifting work in its textual theatrical instance

**In Arden: Editing Shakespeare - Essays In Honour of Richard Proudfoot** Gordon McMullan, Ann Thompson, 2015-03-20 A collection of new and specially commissioned essays by an eminent team of Shakespeare scholars focusing on the particular issues relating to the editing of Shakespeare and other Renaissance texts The editing of dramatic and other literary texts has always been an important aspect of literary studies In recent years editing and the theoretical frameworks that underlie editing practices have become a lively and controversial focus of debate sparked both by philosophical discussions on the death of the author and by the technological challenges presented by the possibilities of electronic texts Most national and international conferences on literature and drama include sessions on textual studies and editing and a number of monographs address particular issues relating to the editing of Shakespeare and other Renaissance texts but this is the first overall survey of the current state of the field The essays have been commissioned to honour Professor Richard Proudfoot Senior General Editor of the Arden Shakespeare and an internationally recognised authority in the field of Shakespeare textual scholarship who retired from King's College London in 1999 after 35 years This is a well planned focused and coordinated volume makes a significant contribution to Shakespeare studies The contributors are a formidable and global group of scholars representing both traditional and contemporary viewpoints They include a number of Arden editors past and present as well as scholars who have edited texts for the main competitors *Voice, Text, Hypertext* Raimonda Modiano, Leroy F. Searle, Peter L. Shillingsburg, 2016-06-01 *Voice Text Hypertext* illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of

cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture *Shakespeare Survey* Stanley Wells, Jonathan Bate, Michael Dobson, 2003-10-16 *Shakespeare Survey* is a yearbook of Shakespeare studies and production Since 1948 *Survey* has published the best international scholarship in English and many of its essays have become classics of Shakespeare criticism Each volume is devoted to a theme or play or group of plays each also contains a section of reviews of the previous year's textual and critical studies and of major British performances The books are illustrated with a variety of Shakespearean images and production photographs The current editor of *Survey* is Peter Holland The first eighteen volumes were edited by Allardyce Nicoll numbers 19-33 by Kenneth Muir and numbers 34-52 by Stanley Wells The virtues of accessible scholarship and a keen interest in performance from Shakespeare's time to our own have characterised the journal from the start Now backnumbers are gradually being reissued in paperback

**L'espace du sens** Silvia D'Intino, Sheldon I. Pollock, 2018 Pour le philologue le texte est un terrain qu'il entreprend d'explorer dans le menu de détail et dont il retrace la fois une genalogie et l'avènement du sens Il s'agit d'explorer les traditions littéraires desquelles le texte fait sens ou contre lesquelles il s'inscrit de relever aussi tout ce qui se rapporte son sens ses origines ses développements ses formes ses nuances ses particularités Si le sens d'un texte n'est jamais singulier et qu'il faut l'envisager comme la somme des significations qu'il reçoit au cours de son histoire S. Pollock c'est seulement dans un contexte culturel donné qu'il prend forme Autant que du temps le sens d'un texte est une fonction de l'espace de l'univers et du réseau littéraire duquel il est perçu transformé reconfiguré Nous avons essayé de mettre l'accent sur cet ancrage dans un espace culturel donné et sur les pratiques de la philologie comme autant d'approches possibles de cet espace du sens

**Reading the Middle Generation Anew** Eric Haralson, 2006-05 Ten original essays by advanced scholars and well published poets address the middle generation of American poets including the familiar Robert Lowell Elizabeth Bishop Randall Jarrell and John Berryman and various important contemporaries Delmore Schwartz Theodore Roethke Robert Hayden and Lorine Niedecker This was a famously troubled cohort of writers for reasons both personal and cultural and collectively their poems give us powerful moving insights into American social life in the transforming decades of the 1940s through the 1960s In addition to having worked during the broad middle of the last century these poets constitute the center of twentieth century American poetry in the larger sense refuting invidious connotations of middle as coming after the great moderns and being superseded by a proliferating postmodern experimentation This middle generation mediates the so-called American century and its

prodigious body of poetry even as it complicates historical and aesthetic categorizations Taking diverse formal and thematic angles on these poets deconstructionist biographical historical and more formalist accounts this book re examines their between ness and ambivalence their various positionings and repositionings in aesthetic political and personal matters The essays study the interplay between these writers and such shifting formations as religious discourse consumerism militarism and war the ideology of America as nature s nation and U S race relations and ethnic conflicts Reading the Middle Generation Anew also shows the legacy of the middle generation the ways in which their lives and writings continue to be a shaping force in American poetry This fresh and invigorating collection will be of great interest to literary scholars and poets

*Rhetoric and Political Culture in Nineteenth-century America* Thomas W. Benson,1997 The critical study of public address has changed in the twentieth century and will continue to evolve in the twenty first As the studies in this volume demonstrate methodological pluralism is the standard of contemporary work and active rhetorical critics today are more consciously aware of the theoretical implications and extensions of their work than were their critical forebears What links the last with the present however and what will continue to engage us in the future is the search for meaning in human rhetorical action The authors in this collection explore the claim that public discourse spoken and written continues to illustrate nineteenth century American political culture The book is a series of close textual readings of significant texts in American rhetoric inquiring into the text the context the influence of pervasive rhetorical forms and genres the intentions of the speaker the response of the audience and the role of the critic These spirited essays are concrete committed dialogic explorations of significant moments in American public discourse That they do not reduce to a single voice or theory will be taken it is hoped as part of their virtue A spirit of eager contestation and respect for intellectual diversity was a marked feature of the collection Each of the chapters treats in some detail issues relating to the theme of time in rhetorical practice

and studies Time appears as an issue here especially in considerations of the persistence of themes and forms in recurrent attempts to transcend and re shape public memory in the choice of speakers and critics to celebrate appropriate revise reframe or reject earlier texts and of course in the use of public oratory to influence the future **Marvels & Tales** ,1998 Journal of fairy tale studies **The Cumulative Book Index** ,1913 Luxurious Sexualities: Textual Practice Volume 11 Jean Howard,Alan Sinfield,Lindsay Smith,1997-12-11 Focusing on 18th century sexuality the contributors present intriguing controversial and provoking articles relating to women popular culture visual media and ethnic and sexual minorities
