

Thai Amulet

Pattana Kitiarsa

Thai Amulet:

The Thai Amulet Lyn Hamilton, 2003 Toronto shopkeeper Lara McClintoch must sift through the layers of Bangkok society to find a fellow antique dealer alive or dead

Mediums, Monks, and Amulets Pattana Kitiarsa, 2012-08-15

Mediums Monks and Amulets is a sophisticated yet accessible study of the state of popular Buddhist beliefs as they are practiced in Thailand today Using a combination of focused case studies and analysis Pattana Kitiarsa explores the nature and evolution of popular Buddhism over the past three decades by focusing on those individuals who practice popularize and profit from it The case studies profiled in this book include prominent spirit mediums and magic monks the lottery fever surrounding the posthumous cult of folk singer Phumphant Duangchan the Chatukham Rammathap amulet craze and the cult of wealth attributed to preeminent monk Luang Pho Khun It also explores the history of both popular and official opinion surrounding supernatural Buddhism and its clashes with the rationalist modernizing policies of Thailand's monarchy and government Mediums Monks and Amulets contests the viewpoint that supernatural elements within popular Buddhism are a symptom of the decline of the religion Instead it argues that this hybridity between traditional Buddhist beliefs and elements from other religions is in fact a symptom of the health and wealth of Buddhism as it negotiates large scale commercialization and global modernity What others are saying Pattana Kitiarsa's ability to weave his personal experiences in with sophisticated anthropological methods makes this book a fascinating and moving read It is a welcome addition to the field and should be read by everyone interested in religion and modernity in Southeast Asia and beyond Justin McDaniel author of *Gathering Leaves and Lifting Words* 2008 and *The Lovelorn Ghost and Magical Monk* 2011 *Medium Monks and Amulets* sheds light on the changing landscape of contemporary Thai religion that is increasingly influenced by prosperity cults from both inside and outside the Buddhist establishment This book helps us to make sense of the religious universe where magic monks spirit mediums amulets deities and other religious commodities of different sorts keep appearing endlessly Phra Paisal Visalo Highlights Focused case studies on individual cult practices including magic monks spirit mediums amulet cults and other prosperity cults Written by the perspective of an anthropologist who is also a follower of popular Buddhism Discusses not only the interaction of popular Buddhist practices with modern day lawmakers but also of nineteenth century royal interaction with supernatural cults

Material Culture and Asian Religions Benjamin Fleming, Richard Mann, 2014-03-26

Traditionally research on the history of Asian religions has been marked by a bias for literary evidence privileging canonical texts penned in classical languages Not only has a focus on literary evidence shaped the dominant narratives about the religious histories of Asia in both scholarship and popular culture but it has contributed to the tendency to study different religious traditions in relative isolation from one another Today moreover historical work is often based on modern textual editions and increasingly on electronic databases What may be lost in the process is the visceral sense of the text as artifact as a material object that formed part of a broader material culture in which the boundaries between religious traditions were

sometimes more fluid than canonical literature might suggest This volume brings together specialists in a variety of Asian cultures to discuss the methodological challenges involved in integrating material evidence for the reconstruction of the religious histories of South Southeast Central and East Asia By means of specific test cases the volume explores the importance of considering material and literary evidence in concert What untold stories do these sources help us to recover How might they push us to reevaluate historical narratives traditionally told from literary sources By addressing these questions from the perspectives of different subfields and religious traditions contributors map out the challenges involved in interpreting different types of data assessing the problems of interpretation distinct to specific types of material evidence e g coins temple art manuscripts donative inscriptions and considering the issues raised by the different patterns in the preservation of such evidence in different locales Special attention is paid to newly discovered and neglected sources to our evidence for trade migration and inter regional cultural exchange and to geographical locales that served as contact zones connecting cultures In addition the chapters in this volume represent the rich range of religious traditions across Asia including Hinduism Buddhism Taoism Shinto and Chinese religions as well as Islam and eastern Christianities

Becoming the Buddha Donald K. Swearer, 2020-07-21 Becoming the Buddha is the first book length study of a key ritual of Buddhist practice in Asia the consecration of a Buddha image or new Buddha a ceremony by which the Buddha becomes present or alive Through a richly detailed accessible exploration of this ritual in northern Thailand an exploration that stands apart from standard text based or anthropological approaches Donald Swearer makes a major contribution to our understanding of the Buddha image its role in Buddhist devotional life and its relationship to the veneration of Buddha relics Blending ethnography analysis and Buddhist texts related to this mimetic reenactment of the night of the Buddha s enlightenment he demonstrates that the image becomes the Buddha s surrogate by being invested with the Buddha s story and charged with the extraordinary power of Buddhahood The process by which this transformation occurs through chant sermon meditation and the presence of charismatic monks is at the heart of this book Known as opening the eyes of the Buddha image consecration traditions throughout Buddhist Asia share much in common Within the cultural context of northern Thailand Becoming the Buddha illuminates scriptural accounts of the making of the first Buddha image looks at debates over the ritual s historical origin at Buddhological insights achieved and at the hermeneutics of absence and presence and provides a thematic comparison of several Buddhist traditions

Material Approaches to Roman Magic Adam Parker, Stuart McKie, 2018-04-30 This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic a field that has until recently lacked object focused analysis Building on the pioneering studies in Boschung and Bremmer s 2015 Materiality of Magic the editors of the present volume have collected contributions that showcase the value of richly detailed context specific explorations of the magical practices of the Roman world By concentrating primarily on the Imperial period and the western provinces the

various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts something that would have been largely impossible in earlier periods of antiquity Contributions are presented from a range of museum professionals commercial archaeologists university academics and postgraduate students making a compelling case for strengthening lines of communication between these related areas of expertise

Contemporary Socio-Cultural and Political Perspectives in Thailand Pranee Liamputtong,2014-01-13 This volume examines contemporary Thailand It captures aspects of Thai society that have changed dramatically over the past years and that have turned Thailand into a society that is different from what most people outside the country know and expect The social transition of Thailand has been marked by economic growth population restructuring social and cultural development political movements and many reforms including the national health care system The book covers the social cultural and economic changes as well as political situations It discusses both historical contexts and emerging issues It includes chapters on social and public health concerns and on ethnicity gender sexuality and social class Most chapters use information from empirical based and historical research They describe real life experiences of the contributors and Thai people who participated in the research

Thailand Marlane Guelden,2007 No Marketing Blurb

The New Blackwell Companion to the Sociology of Religion Bryan S. Turner,2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry
