The Spirit of Christ in Human Brains and Neurosurgery Ramsis F. Ghaly MD FACS,2018-06-07 There is no doubt in my mind that the Spirit of God is connected to the human brain within the skull The human brain is not limited to the boundaries of the skull Instead it goes beyond the physical barriers of our planet and into the spiritual world My Christian faith as a Coptic Egyptian Orthodox was the main reason I chose to be a neurosurgeon It is in this way how my soul becomes closer to Lord Jesus Christ I have devoted my life and withstood a very long journey in medicine and neuroscience leaving my home country of Egypt and coming to America to strive in the difficult fields of neurological surgery neuroscience and anesthesiology Every day my soul learns more and more about my Lord Jesus I see him in my patients in my surgeries and in my surroundings Deep within the brain lies the Spirit of Christ As the author I explore not only the connectivity of the human brain with the Spirit of God but also the Spirit of Christ in my neurosurgery practice My human brain continues to be both thirsty and hungry for more and more of his eternal love In this present book of sixty five chapters much of my soul I wish to share with you the beloved reader A section is designated to my most recent neurosurgery patients testimonials and experiences Another section reflects upon the biblical words used during President Donald Trumps inauguration and Melanias speech and the presidents visit to the Middle East for peace [Vietnamese Choice Poems](#) Nhuan Xuan Le,2013-10-30 This is a collection of English verse translations of poems written by authors of Vietnamese origin living nearly all over the world Our humble wish is to introduce their culture to you poetry loving readers The end of the Vietnam War brought about among others two consequences the Vietnam Syndrome and the Boat People The Vietnamese who fled their country following the collapse of the South Vietnamese Republic of Vietnam government in 1975 consisted of those who crossed the ocean crowded into small boats and those who crossed the border stealthily amid wild jungles constantly throughout two decades totaling nearly one million This did not include about half that number who lost their lives because of the communist police the pirates dehydration starvation and drowning And since the majority did it by sea they all were called Boat People Approximately half that million were received and resettled in the United States while the rest in Australia Canada France the United Kingdom Germany Japan Switzerland Norway Sweden New Zealand Belgium Finland and many

other countries The current strength of the Vietnamese communities in 150 different countries of the world is estimated at over three millions mostly in the US Together most Vietnamese individuals and organizations abroad now would consider themselves Political Refugees And they have their own unnamed Vietnamese s Vietnam Syndrome which is different from and more complicated than the Americans Vietnam Syndrome Not only the Vietnamese Political Refugees themselves but also their descendants the next generations do have in their hearts and minds the same emotions and reflections Naturally poets are among those who experience so deeply their personal ups and downs as well as understand so profoundly their fellow citizens vicissitudes of life that they cannot fail to express their true sentiments and thoughts in their writings You will find in this anthology through 146 poems by 81 Vietnamese of both sexes and of various ages living in the USA Australia Belgium Canada France Germany Norway and Vietnam the core of their feelings or syndrome Feud with those who have caused deaths injuries pain separation from relatives loss of properties nostalgia gratitude to the host countries that have offered refuge and opportunities improvements to integrate into and contribute to the welfare of their adoptive societies aspirations for a free democratic and prosperous Vietnam These poets however have tried to maintain their four thousand year old cultural legacy while self confidently to integrate into the melting pot The authors are not only individuals strangers of a different race but as human beings reading their works might suggest to widen our knowledge to discover learn about and sympathetically share their situation somewhat our very own human condition We hope that this might be a modest part in promoting communication and understanding between nations
