The Allure Of Discus:

The Allure of Discus Herbert R. Axelrod, Bernd Degen, Fumitoshi Mori, 1991 **Enduring Bronze** Carol C. Mattusch, 2014-06-15 Ancient bronze statuary provides a sense of immediacy a window directly back to the classical world The wistful expression of a young Roman woman the fixed jaw of a politician and the tensed muscles of a Greek athlete appear startlingly lifelike transfixing the viewer with their striking realism Incredibly durable yet frequently destroyed for their valuable materials ancient bronzes are comparatively rare discoveries This book richly illustrated with works from the J Paul Getty Museum and other important collections provides an engaging overview of classical bronzes Enduring Bronze considers bronze throughout its long history exploring its enormous appeal from antiquity to the present day The book discusses the many roles bronze objects played in ancient Greece and Rome and analyzes discoveries made at ancient foundries and by contemporary scientists It also examines references to bronze in mythology Pliny s histories and other classical texts as well as representations on vases and other artworks [Bibliography of Agriculture with Subject Index](#) ,1993-11 **Tropical Fish Hobbyist** ,1997 **Freshwater and Marine Aquarium** ,1996 *Pet Business* ,1992 **The Cumulative Book Index** ,1992 A world list of books in the English language **Pindar's Eyes** David Fearn, 2017 Pindar s Eyes is a ground breaking interdisciplinary exploration of the interactions between Greek lyric poetry and visual and material culture in the early fifth century BCE Its aim is to open up analysis of lyric to the wider theme of aesthetic experience in early classical Greece with particular focus on the poetic mechanisms through which Pindar s victory odes use visual and material culture to engage their audiences Complete readings of Nemean 5 Nemean 8 and Pythian 1 reveal the poet s deep interest in the relations between lyric poetry and commemorative and religious sculpture as well as other significant visual phenomena while literary studies of his evocation of cultural attitudes through elaborate use of the lyric first person are combined with art historical treatments of ecphrasis of image and text and of art s framing of ritual experience in ancient Greece This specific aesthetic approach is expanded through fresh treatments of Simonides and Bacchylides own engagements with material culture as well as an account of Pindaric themes in the Aeginetan logoi of Herodotus Histories These come together to offer not just a novel perspective on the relationship between art and text in Pindaric poetry but to give rise to new claims about the nature of classical Greek visuality and ritual subjectivity and to foster a richer understanding of the ways in which classical poetry and art shaped the lives and experiences of their consumers *The Reader's Digest* ,1927 **Aquaculture Magazine** ,1991 *Revolution at the Margins* Frederick M. Hess, 2004-05-13 For more than a decade school choice has been a flashpoint in debates about our nation s schooling Perhaps the most commonly advanced argument for school choice is the notion that markets will force public schools to improve particularly in those urban areas where improvement has proved so elusive However the question of how public schools respond to market conditions has received surprisingly little attention Revolution at the Margins examines the impact of school vouchers and charter schooling on three urban school

districts explores the causes of the behavior observed and explains how the structure of competition is likely to shape the way it affects the future of public education The book draws on research conducted in three school districts at the center of the school choice debate during the 1990s Milwaukee Wisconsin Cleveland Ohio and Edgewood Texas Case studies examine each of these three districts from the inception of their local school choice program through the conclusion of the 1999 school year The three school districts studied did not respond to competition by emphasizing productivity or efficiency Instead under pressure to provide some evidence of response administrators tended to expand public relations efforts and to chip holes in the rules regulations and procedures that regulate public sector organizations Inefficient practices were not rooted out but some rules and procedures that protect employees and vocal constituencies were relaxed Public school systems are driven by political logic according to Hess and their incentives lead them to respond generally through symbolic and metaphorical gestures Choice induced changes in public school systems will be shaped by public governance the market context in which they operate and their organizational characteristics Revolution at the Margins encourages scholars and policymakers to think more carefully about the costs and benefits of educational competi
