

The Myth of the Moderate Democrat

**How the Democratic Party
went from Limited
Government and
Individualism to Marxist
Statist Collectivism**

By Larry Robinson

The Democratic Myth

Jack D. Douglas

The Democratic Myth:

The Democratic Myth Angela Atkin, 1998 The Democratic Myth: Robert M. Maciver's Theory of Democracy Robert D. Slote, 1958 **The Myth of American Democracy** Trenton Fervor, 2013-04-10 In his current work Trenton Fervor author of *The Last Individual The Ascendancy of the Sociomaniacal Mindset* delivers a critical exposition of democracy and its defects *The Myth of American Democracy* is an unapologetic critique of the American political system and an attempt to dismantle the mystique perpetuated to sanctify and sanction it Fervor entreats the reader to reexamine the notion of democracy and its attendant processes absent the sophistic demagoguery and to more closely consider the actual nature of the institution and the establishment behemoth which inhabits and advances it The reader is encouraged to confront the myth and deception which pervade the contemporary conception of democracy and to accept the reality that the democratic emperor is naked Democracy today is in truth fundamentally absurd its premise is that an ideologically coherent consistent and efficient social policy program can be constructed by formulating each aspect of the overall program through a process of majoritarian amalgamation of contradictory incongruent and confrontational views *The Myth of American Democracy* is an important rebuke of conventional democratic orthodoxy which will challenge readers to reevaluate their sympathies for the system This book is recommended reading for everyone who has wrestled with the troubling suspicion that there is something inherently dubious and defective about the democratic system **Myths and Politics in Western Societies** John Girling, 2024-11-01 In an intriguing and provocative book an important thesis An important addition to libraries serving both academic and general readers Choice *The Myth of the Welfare State* Jack D. Douglas, 1989-01-01 *The Myth of the Welfare State* is a basic and sweeping explanation of the rise and fall of great powers and of the profound impacts of these megastates on ordinary lives Its central theme is the rise of bureaucratic collectivization in American society It is Douglas's conviction which he supports with a wealth of detail that statist bureaucracies produce stagnation often exacerbated by inflation which in turn produces the waning of state power Douglas has his own set of isms that require concerted attention mass mediated rationalism scientism technologism credentialism and expertism People who make policies have little if any awareness of the actual way social processes evolve agricultural policy is set by people who know little of farming arid manufacturing policy is set by people who have never set foot on a factory floor In light of this soaring average ignorance it is little wonder that policy making has Alice in Wonderland characteristics and effects Douglas sees the notion of a welfare state as a contradiction in terms its widespread insinuation into the culture is made possible by its weak mythological form and benign sounding characteristics In fact welfare states in whatever form they appear have failed in their purpose to redistribute income or increase real wealth The megastates are the source of social instability and economic downturn They grow like a tidal drift They start out to correct the historical grievances of the laissez faire states only to increase the problems they seek to correct In this the welfare state is a weakened form of the totalitarian state producing similarly unhappy results Professor

Douglas has produced a work of anti policy arguing that freedom leavened by an ordinary sense of self interest and social concern can overcome the shortfalls of the megastates and their myth making self serving propensities **The Democratic Myth** Maurice Rotstein,1983-05-01 Death and Philosophy J.E Malpas,Robert C. Solomon,2002-06-01 Death and Philosophy considers these questions with different perspectives varying from the existentialist deriving from Camus Heidegger or Sartre to the English speaking analytic tradition of Bernard Williams or Thomas Nagel to non wester approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretious Epicurus and Nietzsche Death and Philosophy will be of great interest to philosopers or those studying religion and theology but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal

Beyond Democracy: Why Democracy Does Not Lead to Solidarity, Prosperity, and Liberty but to Social Conflict, Runaway Spending, and Tyrannical Government , **The Condition of Democracy** Jürgen Mackert,Hannah Wolf,Bryan S. Turner,2021-07-12 Recent years have seen contestations of democracy all around the globe Democracy is challenged as a political as well as a normative term and as a form of governance Against the background of neoliberal transformation populist mobilization and xenophobic exclusion but also of radical and emancipatory democratic projects this collection offers a variety of critical and challenging perspectives on the condition of democracy in the 21st century The volumes provide theoretical and empirical enquiries into the meaning and practice of liberal democracy the erosion of democratic institutions and the consequences for citizenship and everyday lives With a pronounced focus on national and transnational politics and processes as well as postcolonial and settler colonial contexts individual contributions scrutinize the role of democratic societies ideals and ideologies of liberal democracy within global power geometries By employing the multiple meanings of The Condition of Democracy the collection addresses the preconditions of democratic rule the state this form of governance is in and the changing ways in which citizens can still act as the sovereign in liberal democratic societies The books offer both challenging theoretical perspectives and rigorous empirical findings of how to conceive of democracy in our times which will appeal to academics and students in social and political science economics and international relations amongst other fields The focus on developments in the Middle East and North Africa will furthermore be of great usefulness to academics and the wider public interested in the repercussions of western democracy promotion as well as in contemporary struggles for democratization from below During the last 50 years liberal democracies have been exposed to a fundamental reorganization of their politico economic structure that transformed them through the impact of neo liberal economic doctrines focused on low taxation free markets and out sourcing that have little regard in reality for democratic institutions or liberal values The failures of the neoliberal remedy for capitalism are now dramatically obvious through the banking crisis of 2008 2011 the increase in income inequality the social and psychological damage caused by the austerity packages across Europe and widespread dependence on experts whose influence over government policies typically goes

without public scrutiny While this has only accelerated the destruction of the social fabric in modern Western societies the dramatic redistribution of wealth and an open politics for the rich have also revealed the long time well covered alliance of the global oligarchy with the Far Right that has the effect of undermining democracy The contributions to this volume discuss a wide variety of processes of transformation the social consequences dedemocratization and illiberalization of once liberal democracies through the destructive impact of neoliberal strategies These strongly politico economic contributions are complemented with general sociological analyses of a number of cultural aspects often neglected in analyses of democracy

Political Myths and Economic Realities Francis Delaisi,1927 *Radical Democracy and Populism* Leonardo Fiorespino,2022-03-02 This book offers an extensive comparative analysis of populism and radical democratic theories tracing the line dividing the respective conceptions of people and popular sovereignty Whereas populism is often said to intertwine with democracy in some way the contention of this book is that it significantly departs from democratic theory and practice and belongs to a distinct conceptual space It cannot be made to overlap for instance with illiberal democracy the democratic myth a crude electoral majoritarianism nor can it amount to hiding undemocratic policies into properly democratic justifications These positions frequent as they are in the literature are contested on the grounds of the dividing line identified which starts unfolding at the level of the conception of the people i e of the sovereign presupposed by populists and democrats This book is of great interest to scholars involved in the study of democratic theory contemporary challenges to democracy and the recent upsurge of populist discourse as it helps better understand populism as a political phenomenon and more adequately defines it as a self standing concept in political theory

The Dangers of Democracy Thomas Mackay,1913 Political nyths and economic realities Frances Delaisi,1927 **The Myth of Democracy** Tage Lindbom,1996 Western intellectuals and politicians are writing and speaking about the triumphs and salvific powers of democracy But according to Swedish historian and philosopher Tage Lindbom there is a widening gap between democratist rhetoric and concrete reality Democratism is surging in the midst of deepening social and political problems including falling standards of moral conduct declining education political corruption the destruction of the family and crime In this provocative and highly engaging volume Lindbom analyzes some of the most important elements of the protracted process that finally produced the modern myth of self governing man Turning the tables on our progressive age Lindbom asks readers to consider the possibility that democracy is quintessentially the manifestation of spiritual debacle the attempt to replace the true sovereignty of God with the kingdom of man

Myth and the American Experience N,1973 **Myths and Legends of Our Own Land** Charles Montgomery Skinner,1896 A collection of folktales from different regions of the United States **Myths & Legends of Our Own Land** Charles Montgomery Skinner,1896 **Mythology and Monuments of Ancient Athens Being a Translation of a Portion of The, Attica of Pausanias** ,1890 *Myths and Facts of the American Revolution* Arthur Johnston,1908 **Greek and Roman [mythology]** William Sherwood Fox,1916
