The World Connection:

An Introduction to Epistemology - Second Edition Jack S. Crumley II, 2009-07-30 The second edition of Jack Crumley's *An Introduction to Epistemology* strikes a balance between the many issues that engage contemporary epistemologists and the contributions of the major historical figures He shows not only how philosophers such as Descartes Hume Locke Berkeley and Kant foreground the contemporary debates but also why they deserve consideration on their own terms A substantial revision of the first edition the second edition is even more accessible to students The new edition includes recent work on contextualism evidentialism externalism and internalism and perceptual realism as well the chapter on coherence theory is substantially revised reflecting recent developments in that area New to this second edition is a chapter on feminist epistemology which includes discussions of major positions and themes such as feminist empiricism feminist standpoint epistemology postmodern epistemology and feminist critiques of objectivity It presents the important contributions of philosophers such as Sandra Harding Helen Longino Genevieve Lloyd and others Each chapter ends with a list of study questions and readings for further study

[Transnational Connections](#) Ulf Hannerz, 2002-01-04 This work provides an account of culture in an age of globalization Ulf Hannerz argues that in an ever more interconnected world national understandings of culture have become insufficient He explores the implications of boundary crossings and long distance cultural flows for established notions of the local community nation and modernity Hannerz not only engages with theoretical debates about culture and globalization but raises issues of how we think and live today His account of the experience of global culture encompasses a shouting match in a New York street about Salman Rushdie a papal visit to the Maya Indians kung fu dancers in Nigeria and Rastafarians in Amsterdam the nostalgia of foreign correspondents and the surprising experiences of tourists in a world city or on a Borneo photo safari

[Fado and the Place of Longing](#) Richard Elliott, 2017-07-05 Fado often described as urban folk music emerged from the streets of Lisbon in the mid nineteenth

century and went on to become Portugal's national music during the twentieth. It is known for its strong emphasis on loss, memory, and nostalgia within its song texts, which often refer to absent people and places. One of the main lyrical themes of fado is the city itself. Fado music has played a significant role in the interlacing of mythology, history, memory, and regionalism in Portugal in the second half of the twentieth century. Richard Elliott considers the ways in which fado songs bear witness to the city of Lisbon in relation to the construction and maintenance of the local. Elliott explores the ways in which fado acts as a cultural product reaffirming local identity via recourse to social memory and an imagined community while also providing a distinctive cultural export for the dissemination of a remembered Portugal on the global stage.
