

The 1961 Experiment

RM Cervero

The 1961 Experiment:

The 1961 Experiment Jon Clair,2001 This is a mystery science fiction thriller which transports readers back in time to witness something one could not explain History and scientific fact are intermixed with fiction leading us to believe this fantastic event actually did take place in a small town in remote Northwestern Pennsylvania on Saturday morning September 16th 1961 A college freshman takes a course in Principles of Geology with the sole intention of meeting and hopefully becoming romantically involved with a certain classy young coed He unwittingly picks exactly the wrong girl for his purposes when they team up to do a research project In lieu of love she persuades the now reluctant fellow to accompany her on a perilous trip back to the upside down year of 1961 Numerous ironis twists perfect timing sheer coincidence and shrewd detective work lead the couple to a discovery relating not to geology but to a strange super secret experiment that went disastrously wrong 40 years ago When authorities catch wind and realize their erstwhile efforts to disguise this World War 11 enigma have been jeopardized they take extraordinary measures to stop the students from actually seeing the ghostlike truth and presumably becoming victims of it

ARS-W. United States. Agricultural Research Service,1973 To See the Unseen Andrew J. Butrica,1996 A comprehensive illuminating history of this little understood but surprisingly significant scientific activity Quite rigorous systematic in its methodology the book explores the development of the radar astronomy specialty in the larger community of scientists More than just discussing the development of this field however the author uses planetary radar astronomy as a vehicle for understanding larger issues relative to the planning execution of big science by the Fed government Sources interviews technical essay abbreviations index
