The 1997 National Study Of The Changing Workforce:

The 1997 National Study of the Changing Workforce James T. Bond, Ellen Galinsky, Jennifer E. Swanberg, 1998 The 1997 National Study of the Changing Workforce NSCW surveyed 2 877 employees regarding the relationship between workers lives on and off the job and changes in the nature of work The report also provides a historical perspective by comparing data from 1997 with data from the 1992 NSCW and from the U S Department of Labor s 1977 Quality of Employment Survey Guiding the study was a model hypothesizing causal pathways connecting characteristics of employees jobs and workplaces characteristics of their lives off the job and aspects of personal well being Among the key findings are the following Over the past 20 years the U S workforce has become more balanced with respect to gender older on average better educated more racially and ethnically diverse and more concentrated in managerial and professional occupations Work has become substantially more demanding The number of employees with employed spouses partners has increased Employed married women spend more time on chores than employed married men Over half of employed parents with employed spouses rely on relative child care Nearly 25 percent of employees have experienced stress often in the past 3 months Over 60 percent say that their chances for job advancement are poor The majority of employees have access to traditional benefits with a minority having access to dependent care benefits Employee satisfaction commitment performance and retention is associated with high quality jobs in supportive workplaces Emerging issues include employers concerns about Generation X workers the impact of workers elder care responsibilities on the labor force and the potential for work family backlash Based on findings it was concluded that creating a highly supportive workplace is a challenge that is worth the effort Author KB

2002, 1997 and 1992 National Study of the Changing Workforce, 2004 NSCW gathered survey data about the lives of workers at work and at home every five years In this work 2002 1997 and 1992 NSCW NSCW details the examination of work and family issues with nationally representative cross sectional samples of the U S labor force Version 1 0 of the NSCW Public Use Files contains 2002 1997 and 1992 survey data and support materials plus code in SPSS syntax to create a comparison file for the 1997 NSCW and 1977 QES

The Flexible Workplace Christine Avery, Diane Zabel, 2000-10-30 Flextime telecommuting compressed work week job sharing downshifting and hot desking these terms are infiltrating our vocabulary at an increasing rate keeping pace with change in the workplace Although there is a large body of literature on the changing nature of work and workplace flexibility there is no handbook that synthesizes the research on all aspects of this topic Pulling together the vast literature on this subject Avery and Zabel explain the concept of flexible work trace the origin and growth of this workplace trend and review the research on a range of flexible work arrangements Workplace flexibility is international in scope Companies both in the United States and abroad have become increasingly interested in implementing flexible work arrangements The authors include a chapter on companies in North America Western Europe and the United Kingdom that have been leaders in implementing flexible work arrangements They identify

Connecting the Dots Peggy Wireman, 2011-12-31 Despite its size and social diversity the United States is one nation and what happens in one city or neighborhood ultimately affects all Americans Connecting the Dots addresses the complex relationships between family and community and between community and other players affecting family and community life including the private sector government nonprofit groups and religious organizations Contrary to much rhetoric Wireman argues that America does not suffer from a loss of family values but from a shift in business practices and public commitments The American dream of work hard buy a home and give your children a better life is no longer realistic for millions of workers both white collar and blue collar At an individual level millions of Americans face significant challenges as they go about trying to meet the everyday responsibilities of earning an income feeding their families maintaining their health finding housing handling everyday household chores and caring for their children Besides identifying top down structures laws and attitudes that create a supportive context for family life the book includes bottom up anecdotal examples to ground its policy oriented discussion It also provides statistical data needed to develop realistic solutions Wireman examines diversity as well since how America handles racial and ethnic differences remains crucial to its future She discusses ways in which communities have created social capital community cohesion and local organizational ability Wireman provides a framework for policymakers local community leaders and neighborhood activists to use in analyzing their situations and selecting the best approach she also describes what various players can and must do to uphold the American dream Connecting the Dots will be of keen interest to sociologists political scientists economists and social workers
