The Afterlife:

The Afterlife Revealed Michael Tymn, 2011-05 At the very foundation of religious faith and hope is a belief that consciousness will survive death and that we will live on in another dimension of reality But that foundation easily crumbles when scientific minds are unable to wrap their brains around an afterlife when they are unable to visualize a non material world As the foundation gives way the philosophy of materialism takes hold and gives rise to moral decadence egocentricity hypocrisy hatred disorder flux strife chaos and fear Such seems to be the state of the world today There is so much to be found outside the highly guarded boundaries of mainstream science and orthodox religion for those willing to open their minds to it for those willing to recognize that the dissemination of Truth did not stop with the good books of organized religion and cannot always be found in the laboratory Beginning in 1848 a number of sensitive people began developing as mediums bringing forth communications from the spirit world One of the skeptics investigating the popular madness was Professor Robert Hare of the University of Pennsylvania Intending to debunk it all Hare would after extensive research become a believer When he asked an apparently advanced spirit what it was all about he was told that it was a deliberate effort on the part of the inhabitants of the higher spheres to break through the partition which has interfered with the attainment by mortals of a correct idea of their destiny after death Unfortunately both orthodox religion and mainstream science acting out of ego and fear have rebuked the efforts of those inhabitants of the higher spheres to enlighten us thus permitting the foundations of both faith and hope to further crumble In **The Afterlife Revealed** Michael Tymn sets forth some of the most credible messages from the spirits relative to the nature of their world Instead of a heaven hell dichotomy we are told that there are many levels or as Jesus is quoted many mansions and that we cross over to the other side based on what might be called a moral specific gravity We discover a Divine plan one of attainment and attunement of gradual spiritual growth of evolution of spirit through progressively higher planes We see how we are really souls occupying bodies rather than bodies housing souls and how our souls are progressing in finding their way back to Oneness with the Creator through the challenges the adversities the trials and tribulations offered us in a particular lifetime

Life After Death Alan Segal, 2010-06-23 A magisterial work of social history **Life After Death** illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die In a masterful exploration of how Western civilizations have defined the afterlife Alan F Segal weaves together biblical and literary scholarship sociology history and philosophy A renowned scholar Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies realities and ideals and why those beliefs changed over time He maintains that the afterlife is the mirror in which a society arranges its concept of the self The composition process for Judaism Christianity and Islam begins in grief and ends in the victory of the self over death Arguing that in every religious tradition the afterlife represents the ultimate reward for the good Segal combines historical and

anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth why the Babylonians viewed the dead as living in underground prisons why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period 534 B C E 70 C E and why Christianity placed the afterlife in the center of its belief system He discusses the inner dialogues and arguments within Judaism and Christianity showing the underlying dynamic behind them as well as the ideas that mark the differences between the two religions In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history Segal sheds a bright revealing light on the intimate connections between notions of the afterlife the societies that produced them and the individual s search for the ultimate meaning of life on earth

Ehrman,2020-03-31 A New York Times bestselling historian of early Christianity takes on two of the most gripping questions of human existence where did the ideas of heaven and hell come from and why do they endure What happens when we die A recent Pew Research poll showed that 72% of Americans believe in a literal heaven 58% in a literal hell Most people who hold these beliefs are Christian and assume they are the age old teachings of the Bible But eternal rewards and punishments are found nowhere in the Old Testament and are not what Jesus or his disciples taught So where did the ideas come from In clear and compelling terms Bart Ehrman recounts the long history of the afterlife ranging from The Epic of Gilgamesh up to the writings of Augustine focusing especially on the teachings of Jesus and his early followers He discusses ancient guided tours of heaven and hell in which a living person observes the sublime blessings of heaven for those who are saved and the horrifying torments of hell for the damned Some of these accounts take the form of near death experiences the oldest on record with intriguing similarities to those reported today One of Ehrman s startling conclusions is that there never was a single Greek Jewish or Christian understanding of the afterlife but numerous competing views Moreover these views did not come from nowhere they were intimately connected with the social cultural and historical worlds out of which they emerged Only later in the early Christian centuries did they develop into the notions of eternal bliss or damnation widely accepted today As a historian Ehrman obviously cannot provide a definitive answer to the question of what happens after death In *Heaven and Hell* he does the next best thing by helping us reflect on where our ideas of the afterlife come from he assures us that even if there may be something to hope for when we die there is certainly nothing to fear *The Palgrave Handbook of the Afterlife* Yujin Nagasawa,Benjamin Matheson,2017-10-12 This unique Handbook provides a sophisticated scholarly overview of the most advanced thought regarding the idea of life after death Its comprehensive coverage encompasses historical religious philosophical and scientific thinking Starting with an overview of ancient thought on the topic The Palgrave Handbook of the Afterlife examines in detail the philosophical coherence of the main traditional notions of the nature of the afterlife including heaven hell purgatory and rebirth In addition and breaking with traditional conceptions it also explores the most recent exciting advance digital models Later sections include analysis of various possible metaphysical accounts that might make sense of the afterlife including substance dualism emergent dualism and materialism and the science of near death experiences as well as the links between human psychology and our attitude to the afterlife Key features Grounded in the most advanced philosophical theological and scientific thinking Contributions by eminent scholars from the world s top universities Balanced treatment of fundamental issues that are relevant to everyone Diverse approaches ranging from the religious to the scientific from the optimistic to the pessimistic A major section on the meaning of the afterlife which includes

The Afterlife Unveiled Stafford Betty, 2011-06-16 What happens to us when we die Many think of heaven as an unimaginable state of bliss As for hell it s far out of proportion to any sin we might have committed and makes a travesty of God But what if the afterlife was something very different The key to such knowledge is mediumship Three decades of research have taught the author a world expert in the field of death and afterlife studies who the most reliable voices are These accounts are far better developed and more plausible than anything found in the world s scriptures or theologies We hunger for a reliable revelation telling us that life here and now is meaningful and good that each of us has an important part to play in its proper unfolding that we are accountable for all we do and that the godless materialism all around us is a pathological mistake The world ahead unlike ours is fascinating and fair Authentic mediums may be the closest thing to the voice of God that our planet has
