by HENRY PLEASANTS

\* These are two reactions from the professional world of music to the courageous and powerful statement of the author's highly controversial point of view on "modern music"—to wit that most of it is neither modern nor music. It is a point of view held by many thousands of inarticulate concertgoers, subscribed to in the actions of most performers and concert managers, and agreed to by a surprisingly large number of modern composers. The reactions of many prominent musicians who read advance proofs will be found beginning on the back of the jacket.

struggle within the music establishment and beyond Focusing on how facts about music are constructed negotiated and continually remodeled We Have Always Been Minimalist retraces the story of these battles that from pure fiction to proven truth led to the triumph of minimalism Christophe Levaux s critical analysis of literature surrounding the origins and transformations of the stylistic movement offers radical insights and a unique new history **Music Clubs Magazine** ,1955
