R.L. Stine,2010-08-31 A spooktacular new look for R L Stine s The Ghosts of Fear Street series **Chironian** ,1902 Electrical Merchandising ,1920 **The Northwestern Miller** ,1912 **The Bugman on Bugs** Richard Fagerlund,2004 This sequel to the authors Ask the Bugman 2002 contains

more valuable information on how to identify assorted insects and arthropods and the best ways to keep them out of your house all presented with the wry humor that fans of Fagerlund's nationally distributed newspaper column have come to treasure. Fagerlund and Strange are proponents of Integrated Pest Management rather than the technique they label Spray and Pray used by most exterminating businesses. Anyone concerned about the health effects of pesticides will want to follow the useful advice in *The Bugman on Bugs* including specific information on what kinds of substances and techniques work best for particular pests. In addition to illustrated chapters on roaches, ants, flies, spiders, centipedes, and scorpions, fleas, lice, bed bugs, mice, termites, and other kinds of pests, the authors discuss human reactions to these creatures, turning their attention both to phobias and to the place of insects in our religious and spiritual lives. Amazing pest control tales are sprinkled throughout the book, have you thought about greasing your linens with hog lard to make yourself disgusting even to fleas, as well as peculiar facts and even a recipe for sautéed termites.

**Bush Boy to Bug Man** Thomas C. R. White, 2005  
 Ten years in the life of a young New Zealander in the Forest Service, he's physically tough, untutored, but keen to get ahead, bring about an amazing metamorphosis. The Technical Trainee of the early pages is barely recognisable as the double-degreed professional entomologist, the bug man who emerges in *statu imaginis* at the end of 1954. Adventures and dangers lie in wait along the trees, to be trailed for the budding academic, and they're not all winged or four-legged. This delightfully written autobiographical slice shows how gutsy determination and two inspirational texts took the author to his chosen speciality and an international career. Born in Ruawai, Tom White grew up in Hawera. After his time in the NZ Forest Service as a Technical Trainee, he was a Forest Entomologist at the FRI in Rotorua. From there, he went to the University of Adelaide in South Australia and was a Senior Lecturer in Zoology before going to the University of the South Pacific as Professor of Biology. From there, he returned to Australia as Dean of Applied Science at Charles Sturt University. He has also lectured and researched in Britain, the USA, South Africa, China, and Italy, and is now an Hon. Research Fellow at the Waite Institute of the University of Adelaide. He is the author of ecological research papers and two books, but this is his first venture outside the world of scientific writing.
