**The Child in the Electric Chair** Eli Faber,2021-06-25 An unsettling yet important historical excavation and true crime narrative Kirkus Reviews starred review The tragic story of the killing of 14 year old George Junius Stinney Jr the youngest person executed in the United States during the twentieth century At 7 30 a m on June 16 1944 George Junius Stinney Jr was escorted by four guards to the death chamber Wearing socks but no shoes the 14 year old Black boy walked with his Bible tucked under his arm The guards strapped his slight five foot one inch frame into the electric chair His small size made it difficult to affix the electrode to his right leg and the face mask which was clearly too large fell to the floor when the executioner flipped the switch That day George Stinney became and today remains the youngest person executed in the United States during the twentieth century How was it possible even in Jim Crow South Carolina for a child to be convicted sentenced to death and executed based on circumstantial evidence in a trial that lasted only a few hours Through extensive archival research and interviews with Stinney s contemporaries men and women alive today who still carry distinctive memories of the events that rocked the small town of Alcolu and the entire state Eli Faber pieces together the chain of events that led to this tragic injustice The first book to fully explore the events leading to Stinney s death *The Child in the Electric Chair* offers a compelling narrative with a meticulously researched analysis of the world in which Stinney lived the era of lynching segregation and racist assumptions about Black Americans Faber explains how a systemically racist system paired with the personal ambitions of powerful individuals turned a blind eye to human decency and one of the basic tenets of the American legal system that individuals are innocent until proven guilty As society continues to grapple with the legacies of racial injustice the story of George Stinney remains one that can teach us lessons about our collective past and present By ably placing the Stinney case into a larger context Faber reveals how this case is not just a travesty of justice locked in the era of the Jim Crow South but rather one that continues to resonate in our own time A foreword is provided by Carol Berkin Presidential Professor of History Emerita at Baruch College at the City University of New York and author of several books including *Civil War Wives The Lives and Times of Angelina Grimke Weld Varina Howell Davis* and *Julia Dent Grant*

**General Technical Report SRS** ,1999 Technical Publication R8-TP ,1994 *The Birth of Big Business*

*in the United States, 1860-1914* David O. Whitten, Bessie E. Whitten, 2005-11-30 The economic and cultural roots of contemporary American business can be traced directly to developments in the era between the Civil War and World War I. The physical expansion of the country combined with development of transportation and communication infrastructures to create a free market of vast proportion and businesses capable of capitalizing on the accompanying economies of scale through higher productivity, lower costs, and broader distribution. *The Birth of Big Business in the United States* illuminates the conditions that changed the face of American business and the national economy, giving rise to such titans as Standard Oil, United States Steel, American Tobacco, and Sears Roebuck, as well as institutions such as the United States Post Office. During this period, commercial banking and law also evolved, and as the authors argue, business and government were not antagonists but partners in creating mass consumer markets, process innovations, and regulatory frameworks to support economic growth. *The Birth of Big Business in the United States* is not only an incisive account of modern business development but a fascinating glimpse into a dynamic period of American history.

*Developing Dixie* Winfred Moore, Joseph F. Tripp, Lyon G. Tyler, 1988-06-27 This collection of essays examines the development of the American South from the end of the Civil War to the end of World War II. Written by both well-known and emerging scholars, the essays are divided into sections that address some of the major issues of that era, such as race relations, economic development, political reform, the roles of southern women, the messages of folk music, and the problems of the region's historians. Each article offers fresh insights or new information on its subject, and collectively the articles help to illuminate how the most traditional of American regions tried to cope with the forces of modernization.

**North American Forest and Conservation History** Ronald J. Fahl, Forest History Society, 1977 Ronald J. Fahl has compiled a milestone reference work, one that offers historians and other interested scholars, for the first time, a reliable and comprehensive access to the widely scattered written materials that reveal the history of forestry, forest conservation, and forest industry in the United States and Canada. Sponsored by the Forest History Society and funded in part by a major grant from the National Endowment for the Humanities, this volume covers published scholarly books and writings from many sources containing significant historical matter, including lumber trade journals, professional forestry journals, conservation magazines, government publications, state and local histories, autobiographies, and oral history interviews.
